1(d)(ii) Details of any changes in the company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on. State also the number of shares that may be issued on conversion of all the outstanding convertibles as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year.

**Changes in share capital**

The Company's issued and paid up share capital increased by 335,000 new ordinary shares of US\$0.10 each pursuant to the exercise of 335,000 option shares during the half year period ended 30 June 2008. The exercise of option shares increased share capital and share premium by approximately S\$46,000 and S\$31,000 respectively during the half year period.

### Share Options

On 8 September 2005, the Board of Directors adopted an Employee Share Option Scheme ("scheme") where 63,206,000 option shares were granted to selected executive employees and certain directors of the Group, its ultimate holding company and certain of its subsidiaries. The scheme is one-off and there will be no further issue of any options under this scheme. The options granted can only be exercised by the grantees with effect from the third year of the offer date and the number of new shares comprised in the options which a grantee can subscribe for from the third year onwards shall be subject to a maximum of 12.5%, rounded up to the next 1,000 shares of the allowable allotment for each grantee. The scheme is for a duration of ten years and the options expire on 7 September 2015.

The initial exercise price for each option share is US\$0.1876, fixed at a price equal to the average of the middle market quotations of the shares of the Company on Central Limit Order Book International ("CLOB International") (on which the Company's shares were quoted and traded at that time), for forty market days immediately preceding the offer date.

At the Extraordinary General Meeting ("EGM") held on 8 August 2007, the Company's shareholders approved certain amendments to the scheme. The Remuneration Committee considered it necessary to amend some of the existing rules of the scheme to provide flexibility to make certain adjustments to the terms of the share options granted under the scheme to be in line with industry practice. The proposed amendments include adjustments to be made to the number and exercise price of the option shares upon the occurrence of certain events. As a result of the rights issue completed in September 2007 ("Rights Issue"), the abovementioned exercise price per share and number of option shares outstanding have been adjusted in accordance with the formulae outlined in the offer circular dated 23 July 2007. The adjusted exercise price per share is US\$0.1658.

As at 30 June 2008, the number of unissued option shares (after incorporating adjustments for the Rights Issue) in the Company under the scheme are as follows:

Date of grant of options	Adjusted exercise price per share (US\$)	Adjusted number of option shares granted	Adjusted number of option shares exercised	Adjusted number of option shares forfeited	Adjusted number of option shares outstanding as at 30 June 2008
8 September 2005	0.1658	71,530,693	(1,196,000)	(7,865,784)	62,468,909

8. **A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-**  
**(a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**

For the current quarter, the Group recorded revenue of S\$126.3 million and loss before tax of S\$21.5 million. This represents a reduction of S\$42.5 million and S\$25.6 million in revenue and profit respectively compared to the first quarter of the financial year. The decrease is mainly attributable to the poor performance of the Group's UK casinos which recorded lower patronage and drops per head exacerbated by lower win % due to luck factor in the current quarter. In addition, this quarter's results is also affected by one off redundancy costs as well as costs of closure of certain casinos which are steps taken by the Group to address the current challenging trading environment in the UK. On a positive note, the Group has recovered net debts amounting to S\$12.2 million in the current quarter.

Group revenue reduced by S\$93.7 million in the current half year period when compared to revenue in the corresponding half year period of 2007 of S\$388.8 million. The reduction is mainly due to a decrease of S\$92.4 million in revenue from the Group's UK casino operations. Revenue from the UK casinos operations were depressed by lower volume and lower win % due to luck factor. The reduction was further exacerbated by the weakening of the Sterling Pound against the Singapore Dollar.

The Group recorded a loss before taxation of S\$17.4 million in the current half year period compared to a profit of S\$23.6 million in the corresponding half year period of 2007 due mainly to the following:

- a) Lower fair value gain on derivative financial instruments of S\$28.2 million arising from changes in valuation of the derivative financial instrument portion of the Group's convertible bonds and interest rate swaps, when compared to the S\$39.6 million gain recognised in the corresponding period in 2007. Interest rate swaps that were entered into and accounted for using the conventional method in the current half year period recorded a gain arising from changes in fair value amounting to S\$4.7 million (2007: S\$Nil);
- b) Loss before interest expense from UK casinos of S\$9.9 million in the current half year period compared to profit before interest expense of S\$48.2 million in the corresponding half year period of 2007. The loss from casino operations in the current half year period was mainly due to a combination of lower business volume and lower luck factor, write offs due to closure of casinos and higher gaming duties pursuant to the change in gaming duty rate from April 2007 offset by net bad debts recovered; and
- c) A net foreign exchange loss of S\$6.0 million for the current half year period compared against a lower foreign exchange loss of S\$1.3 million in the corresponding half year period in 2007.

The effect of the above has been reduced by:

- a) Lower interest expense on borrowings for the period ended 30 June 2008 of S\$35.1 million compared to S\$50.6 million in 2007 due to partial loan repayments made after 30 June 2007;
- b) The estimated one-third share of after tax profits of the international betting division, which was disposed by the Group in 2007. The Group had on 22 March 2007 completed the disposal of its 50% interest in international betting operations for a cash consideration of S\$3.3 million (£1.0 million). The disposal was effective from 1 January 2007. In addition to the basic consideration of S\$3.3 million, the Group is entitled to a share of the after tax profits from this disposed unit over the next three years, subject to a maximum aggregate of

---

approximately S\$15.0 million (£5.0 million). For 2007, the share of profits will be one-third followed by 25% and 20% of the after tax profits respectively for 2008 and 2009. The Group's share of 2007 profits have been estimated to amount to approximately S\$2.2 million (equivalent to £800,000) and has been accounted for in the current half year period. The actual amount to be received will be determined upon the finalisation of the disposed international betting operations' 2007 year-end after tax results.

- c) An impairment loss of S\$18.1 million recognised during the half year period in 2007 arising from the expiry of an option to purchase land in the UK by a subsidiary. No such impairment loss is recognised in the current half year period.

The Group also accounted for a deferred tax credit of S\$12.0 million arising principally from the release of deferred tax provisions following the disposals and closure of several casinos and properties in the UK and from tax losses and capital allowances carried forward for the period.

**(b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.**

**Investment in Resorts World at Sentosa Pte Ltd ("RWS")**

On 14 January 2008, the Company has through its wholly-owned subsidiary, Star Eagle Holdings Limited ("Star Eagle"), increased its investment in RWS, a wholly-owned subsidiary of Star Eagle from 900,000,000 ordinary shares to 1,100,000,000 ordinary shares by way of subscription for an additional 200,000,000 new ordinary shares for a cash consideration of S\$200,000,000.

On 9 April 2008, the Company again increased its investment in RWS from 1,100,000,000 ordinary shares to 1,500,000,000 ordinary shares by way of subscription for an additional 400,000,000 new ordinary shares for a cash consideration of S\$400,000,000.

RWS was awarded the right to develop an integrated resort on Sentosa Island by the Singapore Government in December 2006. During the half year period, RWS entered into a joint venture with Sentosa Leisure Management Pte Ltd ("SLM") to form DCP (Sentosa) Pte Ltd, a jointly controlled entity. RWS has subscribed for 25.36 million shares of S\$1.00 each representing 80% of the share capital of DCP (Sentosa) Pte Ltd while the remaining 20% share capital in DCP (Sentosa) Pte Ltd has been subscribed for by SLM. The purpose of the joint venture is to build and operate a district cooling plant on Sentosa Island, Singapore, to supply piped chilled water for air conditioning and other cooling requirements of the integrated resort. Excess capacity from the district cooling plant will be sold to other users on Sentosa Island.

**Interest rate swap**

The Group has entered into interest rate swaps during the half year period to hedge the Group's exposure to interest rate risk on its borrowings in the UK and Singapore. These contracts entitle the Group to receive interest at floating rates on notional principal amounts and oblige the Group to pay interest at fixed rates on the same notional principal amounts, thus allowing the Group to raise borrowings at floating rates and swap them into fixed rates.

The fair value changes on the effective portion of interest rate swaps designated as cash flow hedges and accounted for under hedge accounting are recognised in the hedging reserve and transferred to the income statement when the interest expense on the borrowings are recognised in the income statement. The fair value changes on the ineffective portion of the interest rate swaps accounted for under hedge accounting are recognised immediately in the income statement. The fair value changes for interest rate swaps accounted for under conventional accounting method are recognised directly in the income statement.

The carrying amount of the derivative designated as a hedge is presented as a non-current asset or liability if the remaining expected life of the hedged item is more than 12 months, and as a current asset or liability if the remaining expected life of the hedged item is less than 12 months.

Other than the above and as disclosed in the other notes, there has been no material factors that affected the cash flow, working capital, assets or liabilities of the Group.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

No forecast or prospect statement has been disclosed to shareholders.

**10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

**United Kingdom**

The Group's casino operations accept bets on a number of games and there is a risk that it could lose rather than win on a particular bet. Although historically the casino operations have maintained a satisfactory winning margin, there is no assurance that this will continue to be maintained for any specific quarter or reporting period.

Changes were made to the UK Gaming Duty bands and rates in 2007. From 1 April 2007, the 2.5% starting rate of gaming duty was abolished; the next band of 12.5% was increased to 15% and a new rate of 50% was introduced. The changes were imposed without prior indication or consultation with the UK gaming industry and have since continued to have a negative effect on the profit performance of the industry generally and of the Group.

From July 2007, the UK Government implemented a smoking ban in all public enclosed areas in England and Wales, in addition to Scotland where the smoking ban was implemented in March 2006. This ban has had an adverse impact on the gaming business of the Group. Management is cognisant of the impact of this ban and has taken steps to address the matter, such as modifying its casinos where possible to enable access to external smoking areas for the convenience of its players.

The Gambling Act 2005, enacted to replace the Gambling Act, 1968, introduced new regulatory requirements for the UK casino industry. These included the ability to market and to provide incentives which allow operators to offer more player packages which are more competitive internationally. The benefit of the ability to market is in the early stages of evaluation but over the longer term should provide new opportunities for the Group.

As the largest casino operator in the UK, with 44 casinos (comprising 39 within the provincial estate and 5 in London - which includes some of the finest casinos in the UK), the Group is in a good position to capitalise on its network of high quality casino offerings and compete aggressively for the international casino markets. However, the general economic outlook is expected to be poor. Management expects that this will have a continued impact on disposable income and accordingly, the trading results of the UK operations.

Genting Stanley (Solihull) Limited, a wholly owned subsidiary of the Group, entered into a partnership with the NEC Group for a proposed circa £90 million development of a Leisure and Development Complex at The National Exhibition Centre (“NEC”) in Birmingham, UK in June 2008. Although full details are still being developed, the proposed Leisure and Entertainment Complex will include a Large Casino, a spa, a hotel, high quality bars and restaurants together with other significant leisure attractions. The proposed development is subject to the granting of a gaming licence by Solihull Metropolitan Borough Council to operate a Large Casino within the Leisure and Entertainment Complex which is expected to be operated by the Group.

### **Singapore**

On 14 January 2008, the Group increased its investment in RWS from 900,000,000 ordinary shares to 1,100,000,000 ordinary shares by way of subscription of an additional 200,000,000 new ordinary shares for a cash consideration of S\$200,000,000. The Group again increased its investment in RWS on 9 April 2008 and 4 August 2008 by an additional 400,000,000 and 200,000,000 new ordinary shares for a cash consideration of S\$400,000,000 and S\$200,000,000 respectively bringing the total ordinary shares subscribed by the Group in RWS to 1,700,000,000 ordinary shares.

On 24 April 2008, RWS completed the syndication for up to S\$4,192,500,000 Syndicated Senior Secured Credit Facilities (comprising \$4,000,000,000 in loan facilities and a \$192,500,000 banker’s guarantee facility) for its integrated resort development. The credit facilities are expected to fund two-thirds of the estimated project costs, with the remaining to be funded through equity raised by the Company from internal funds and proceeds received from its Rights Issue in 2007.

Construction is on track for the integrated resort's soft opening by early 2010. As at 30 June 2008, more than S\$2.9 billion in construction contracts ranging from road diversion works to reclamation, substructure and main builder works for four hotels, casinos, ballroom, showroom and retail area have been awarded. Development costs incurred for the construction and development of the integrated resort, Resorts World at Sentosa, are capitalised and classified as construction-in-progress in property, plant and equipment under non current assets.

The Group continues to be confident and optimistic about the prospects of Resorts World at Sentosa.

### **Online gaming**

The Group received approval from the Singapore Exchange Securities Trading Limited on 3 January 2008, to allow the Group to undertake online gaming operations in Alderney (British Channel Islands) and/or the United Kingdom. Genting Stanley Alderney Limited (“GSAL”), a wholly owned subsidiary of the Group, then received its online gaming licence from the Alderney Gambling Control Commission (“AGCC”) in March 2008. GSAL launched its first online casino brand “CircusCasino.com” in the United Kingdom in June 2008. “CircusCasino.com” offers a range of over 100 casino, card and table games. Players from around the world are able to access “CircusCasino.com” and view the Play for Fun games. However, at present only players from the United Kingdom, Isle of Man and Channel Islands are able to deposit funds and participate in Play for Real games.

**Effect of convertible bond issues**

The Company had on 12 January 2007 and 26 April 2007 issued the First Convertible Bonds and Second Convertible Bonds respectively, totaling S\$875.0 million.

The Group's derivative financial instruments arising from the conversion option embedded in its convertible bonds are initially recognised at fair value and remeasured at each accounting date. Resulting gains or losses arising from subsequent fair value remeasurements of derivative financial instruments are taken into account in the income statement. The impact of the convertible bonds on the income statement for the period-to-date includes the recognition of a fair value gain on derivative financial instruments of S\$23.5 million and an interest charge of S\$14.5 million. Market fluctuation will result in changes in fair values of the derivative financial instruments, which may result in volatility in the Group's financial results.

Dear Sirs

**INDEPENDENT REVIEW REPORT TO THE BOARD OF DIRECTORS OF  
GENTING INTERNATIONAL PUBLIC LIMITED COMPANY  
FOR THE FINANCIAL PERIOD ENDED 30 JUNE 2008**

**Introduction**

We have reviewed the accompanying consolidated balance sheet of Genting International Public Limited Company (the "Company") and its subsidiaries (the "Group") as of 30 June 2008 and the related consolidated statements of income, changes in equity and cash flows for the six-month period then ended ("second quarter 2008 financial information"). Such second quarter 2008 financial information has been prepared by the Company for announcement on the Singapore Exchange Securities Trading Limited.

**Respective responsibilities of directors and auditors**

Appendix 7.2 of the Singapore Exchange Securities Trading Limited Listing Manual (the "Listing Manual") requires the preparation of second quarter 2008 financial information to be in compliance with the relevant provisions thereof. The interim financial information is the responsibility of, and has been approved by the directors.

It is our responsibility to form an independent conclusion, based on our review, on the second quarter 2008 financial information and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

The Board of Directors

PwCKL/LTH/FWY/AL

### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2400, "Engagements to Review Financial Statements". A review of second quarter financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Our scope was limited to the review of accompanying consolidated balance sheet of Genting International Public Limited Company and its subsidiaries as of 30 June 2008 and the related consolidated statements of income, changes in equity and cash flows for the six-month period then ended. Based on the restricted scope of our review, nothing has come to our attention that causes us to believe that the accompanying second quarter 2008 financial information is not prepared, in all material respects, in accordance with IAS 34 'Interim Financial Reporting'.
