NOTES TO THE INTERIM FINANCIAL REPORT – 3RD QUARTER ENDED 30 SEPTEMBER 2007

(I) Compliance with Financial Reporting Standard ("FRS") 134: Interim Financial Reporting

(a) Accounting Policies and Methods of Computation

The interim financial report is unaudited and has been prepared in accordance with Financial Reporting Standard ("FRS") 134: "Interim Financial Reporting" and paragraph 9.22 of the Bursa Malaysia Securities Berhad ("Bursa Securities") Listing Requirements. The financial information of the Company and its material subsidiaries for the current quarter ended 30 September 2007 have been reviewed by the Company's auditors in accordance with the International Standard on Review Engagements ("ISRE") 2410 — Review of Interim Financial Information by the Independent Auditor of the Entity.

The interim financial statements should be read in conjunction with the audited financial statements of the Group for the financial year ended 31 December 2006. The accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted for the annual audited financial statements for the financial year ended 31 December 2006 except for the following:

- i) In the current period, the Group adopted the following revised FRSs which are applicable to its financial statements for the current financial year ending 31 December 2007 and are relevant to its operations:-
 - FRS 6 Exploration for and Evaluation of Mineral Resources (Adoption of FRS 6 will not have any impact to the Group as the continued application of the Group's existing policy is permitted)
 - FRS 117 Leases
 - FRS 124 Related Party Disclosures (The disclosure requirements under FRS 124 will be presented in the annual financial statements for the financial year ending 31 December 2007)

The principal effects of the change in accounting policy resulting from the adoption of the revised FRS 117 is set out below:-

Prior to the adoption of the revised FRS 117, leasehold land was classified as property, plant and equipment and was stated at cost or valuation less accumulated depreciation and impairment losses. Under the revised FRS 117, leasehold land is an operating lease unless title passes to the lessee at the end of the lease term. With the adoption of the revised FRS 117, the unamortised carrying amounts of leasehold land are now classified as prepaid lease payments and amortised over the period of its remaining lease term, as allowed by the transitional provisions of the revised FRS 117. The reclassification of leasehold land as prepaid lease payments has been accounted for retrospectively and the comparatives in the balance sheet have been restated.

The effects on the comparatives to the Group on adoption of FRS 117 are as follows:

RM'000	As previously reported	Effects on adoption of FRS 117	As restated
Group At 1 January 2007			
Property, plant and equipment Prepaid lease payments	9,511,298	(383,087) 383,087	9,128,211 383,087

ii) In the current period, Resorts World Limited ("RWL"), an indirect wholly owned subsidiary of Resorts World Bhd ("RWB"), which in turn is 49.1% owned by the Company as at 30 September 2007, ceased to have significant influence over an associate, details of which are disclosed in Note (j) vii) in Part I of this interim financial report. Pursuant to paragraphs 18 and 19 of FRS 128, Investments in Associates, the use of the equity method is to be discontinued from the date the entity ceases to have significant influence over the associate and consequently the investment is to be accounted for in accordance with the requirements of FRS 139, Financial Instruments: Recognition and Measurement, from that date.

The carrying amount of the investment at the date it ceases to be an associate is to be regarded as its cost on initial measurement as an "Available-for-sale financial asset" ("AFS"). After the initial measurement, the AFS is to be measured at its fair values based on quoted prices in an active market.

Any gain or loss arising from a change in the fair value of the AFS is to be recognised directly in equity, through the statement of changes in equity, except for impairment losses and foreign exchange gains and losses, until the AFS is derecognised, at which time the cumulative gain or loss previously recognised in equity will be recognised in income statement.

When a decline in the fair value of the AFS has been recognised directly in equity and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised directly in equity is to be removed from equity and recognised in income statement even though the AFS has not been derecognised. The amount of cumulative loss is measured as the difference between the carrying amount and current fair value, less any impairment loss on that AFS previously recognised in income statement.

The financial effect to the Group arising from the adoption of this accounting policy at the date of completion is as follows:

Financial Effect Increase/(Decrease) RM'000

Available-for-sale financial assets – at date of recognition	2,669,037
Associate – at date of derecognition	(1,195,076)
Fair value reserve – measurement at date of designation	730,442
Minority interests – at date of designation	743,519

owned subsidiary of Genting International Investment (UK) Limited, an indirect wholly owned subsidiary of Genting International P.L.C. ("GIPLC"), which in turn is a 53.5% owned subsidiary of the Group as at 30 September 2007, made a recommended cash offer for the entire issued and to be issued ordinary share capital of Genting Stanley plc ("Genting Stanley") at a price of 860 pence per share. As at 6 October 2006, the offer became unconditional in all respects. Genting Stanley subsequently became a wholly owned subsidiary of GIPLC.

The value of assets (including intangible assets) and liabilities of Genting Stanley ensuing from the acquisition had initially been determined based on provisional fair values assigned to identifiable assets and liabilities on acquisition date and were not allocated to the GIPLC Group's cash generating units ("CGUs") pending finalisation of the Purchase Price Allocation ("PPA") exercise. Any adjustments to these provisional values upon finalisation of the PPA exercise were to be recognised within 12 months from acquisition date as permitted by FRS 3.

The GIPLC Group engaged an independent valuation firm to assist in the PPA exercise and the said exercise has been completed. The effects of the PPA exercise is summarised below. These adjustments will be accounted for as if they had been recognised on acquisition date and adjusted in the comparative financial statements as a prior year adjustment.

	As previously stated RM'000	As restated RM'000	Increase/ (Decrease) RM'000
Decrease in property, plant and equipment	9,128,211	8,989,327	(138,884)
Increase in intangible assets	5,438,147	5,592,350	154,203

Increase in trade and other payables	1,335,690	1,360,488	24,798

(b) Seasonal or Cyclical Factors

On an overall basis, the business operations of the Group's Leisure & Hospitality Division and Plantation Division are subject to seasonal fluctuations. The results of the Leisure & Hospitality Division are affected by major festive seasons and holidays. Fresh fruit bunches ("FFB") crop production are seasonal in nature. Based on the Plantation Division's past experiences, production of FFB normally peaks in the second half of the year but this cropping pattern can be affected by changes in weather conditions. More detailed commentary is set out in Notes 1 and 2 in Part II of this interim financial report.

(c) Unusual Items Affecting Assets, Liabilities, Equity, Net Income or Cash Flow

The unusual items included in the interim financial statements for the current financial period ended 30 September 2007 relate to:

The Exchangeable Notes which are guaranteed by the Company, are exchangeable at the option of the holders of the Exchangeable Notes into existing ordinary shares in RWB held by the Company, and are exchangeable from 21 January 2004 to 2 December 2008.

The details relating to the exchange as at 30 September 2007 are as follows:

ii) RWB had in September 2006 issued RM1.1 billion nominal value zero coupon convertible notes due 2008 ("Notes") which are convertible at the option of the holders of the Notes into new RWB shares, and are convertible from 20 October 2006 to 11 September 2008.

The details relating to the conversion as at 30 September 2007 are as follows:

	Current quarter	Current financial period
Value of Notes converted into new RWB shares – RM million	198.3	827.7
Number of new RWB shares issued – million	77.8	324.6
Nominal value of Notes paid in the form of cash – RM million	51.1	51.1
Gain on dilution – RM million	45.6	225.5

iii) GIPLC had on 12 January 2007 issued SGD425.0 million convertible bonds due 2012 ("First Convertible Bonds") which were initially convertible into approximately 673.7 million fully paid-up new ordinary shares of USD0.10 each of GIPLC at a conversion price of SGD0.6308 per share, and are convertible from 7 February 2007 to 31 December 2011. The First Convertible Bonds were listed and quoted on the Singapore Exchange Securities Trading Limited ("SGX-ST") with effect from 15 January 2007.

As a result of the rights issue (see Note (e) vi) in Part I of this interim financial report), adjustments have been made to the conversion price, from SGD0.6308 per share to SGD0.55 per share with effect from 17 September 2007.

The details relating to the conversion as at 30 September 2007 are as follows:

	Current quarter	Current financial period
Value of First Convertible Bonds converted – SGD million	7.8	364.4
Number of new GIPLC shares issued – million	12.4	577.7
Gain on dilution – RM million	3.4	245.3

- iv) The annual impairment review conducted by GIPLC on its assets during the current quarter indicated that the GIPLC Group had suffered an impairment loss of RM897.3 million on goodwill arising from its acquisition of Genting Stanley in 2006. The impairment is largely attributable to the increase in gaming duty rates by the UK government effective April 2007, after GIPLC's acquisition of Genting Stanley. The increase in gaming duty took the UK gaming industry by surprise as it was made without any prior consultation and indication. The smoking ban which came into effect in the UK from July this year has also adversely impacted the gaming business.
- v) On 13 July 2007, RWB through CIMB Investment Bank Berhad, announced that RWL had accepted an offer made by CMY Capital (L) Ltd ("CMYL") to purchase 1.01 billion ordinary shares of USD0.10 each in Star Cruises Limited ("SCL") from RWL ("Proposed Disposal"), for a total cash consideration of HKD2.6462 billion (approximately RM1.172 billion).

The Proposed Disposal which was completed on 30 July 2007 has resulted in a net gain of RM337.1 million for the RWB Group.

vi) On 16 March 2007, the Company had announced the disposal of the Group's paper and packaging businesses which was subsequently completed on 24 July 2007. Consequently, the Group has recognised a loss arising from disposal of RM196.5 million for the current financial period ended 30 September 2007.

Other than the above, there were no other unusual items affecting the assets, liabilities, equity, net income or cashflows of the Group for the current financial period ended 30 September 2007.

(d) Material Changes in Estimates

There have been no significant changes made in estimates of amounts reported in prior financial years.

The repurchased transactions were financed by internally generated funds. The repurchased shares are held as treasury shares in accordance with the requirements of Section 67A (as amended) of the Companies Act, 1965.
- v) GIPLC had on 26 April 2007 issued SGD450.0 million convertible bonds due 2012 ("Second Convertible Bonds") which were initially convertible into approximately 363.4 million fully paid-up new ordinary shares of USD0.10 each of GIPLC at a conversion price of SGD1.2383 per share, and are convertible from 22 May 2007 to 16 April 2012. The new ordinary shares, upon issue, shall rank pari passu with the existing ordinary shares of GIPLC. The Second Convertible Bonds were listed and quoted on the SGX-ST with effect from 27 April 2007.

As a result of the rights issue (see Note (e) vi) below), adjustments have been made to the conversion price, from SGD1.2383 per share to SGD1.08 per share with effect from 17 September 2007.

None of the Second Convertible Bonds have been converted into new GIPLC shares during the current financial period ended 30 September 2007.

The rights issue, which was completed on 18 September 2007, was oversubscribed and raised gross proceeds of approximately SGD2.17 billion.

As at 30 October 2007, GIPLC has utilised SGD517.2 million of its rights issue proceeds to repay part of an outstanding bridging loan of GBP297.0 million taken by the GIPLC Group for the acquisition of Genting Stanley in 2006. The balance of the net proceeds from the rights issue will be used for the partial funding of the development of the Integrated Resort on Sentosa Island in Singapore, repayment of borrowings and for working capital.

vii) The Company issued 2,632,000 new ordinary shares of 10 sen each, for cash, arising from the exercise of options granted under the Genting Executive Share Option Scheme at exercise prices of RM2.616 and RM2.868 per ordinary share for the current financial period ended 30 September 2007.

Other than the above, there were no other issuance, cancellation, repurchase, resale and repayment of debt securities of the Group and equity securities of the Company for the current financial period ended 30 September 2007.

(h) Valuation of Property, Plant and Equipment

Property, plant and equipment, which are stated at revalued amounts, have been brought forward without amendment from the previous annual financial statements.

(i) Material Events Subsequent to the end of the financial period

i) As at 15 November 2007, the Company's percentage shareholding in RWB has increased to 49.2% compared to 49.1% as at 30 September 2007 due to the combined effects of RWB's purchase of its own shares (see Note (i) ii) below), exchange of part of the Exchangeable Notes issued by PVLL for existing RWB ordinary shares and conversion of part of the Notes issued by RWB into new RWB ordinary shares.

Although the Company's shareholding in RWB has fallen below 50%, RWB is consolidated as a subsidiary of the Company as the Company continues to have control over RWB within the definition of "control" set out in FRS 127: "Consolidated and Separate Financial Statements".

ii) At the Annual General Meeting of RWB held on 21 June 2007, the shareholders of RWB had approved the renewal of the authority for RWB to purchase its own shares of up to 10% of the issued and paid-up share capital of RWB.

Subsequent to the end of the current financial period, RWB had repurchased a total of 35,457,800 ordinary shares of RM0.10 each of its issued share capital from the open market for a total consideration of RM134.07 million up to 15 November 2007. The repurchased shares are held as treasury shares in accordance with the requirements of Section 67A (as amended) of the Companies Act, 1965.

iii) Resorts World at Sentosa Pte Ltd ("RWS"), an indirect wholly owned subsidiary of GIPLC and which is a special purpose vehicle principally engaged in the development and operation of the Sentosa Integrated Resort in Singapore, had been awarded the project to develop the integrated resort on Sentosa Island, Singapore.

On 6 November 2007, GIPLC announced that in anticipation of the bullish tourism outlook for Singapore and Asia in the next few years, RWS will be adding six new attractions to its Resort. To account for these enhancements, the rising costs of construction as well as a further contingency provision of SGD250 million, RWS has revised its original budget of SGD5.2 billion for the development of the Resort to SGD6.0 billion. This represents a 15% increase to the original budget. The projected returns to the Resort, despite the higher budget, are unlikely to be affected.

iv) On 22 November 2007, the Board of Directors has declared a special dividend of 30.0 sen per ordinary share of 10 sen each, less 27% tax, in memory of the late Founder and Honorary Life Chairman of the Company, Tan Sri Lim Goh Tong. Details of this special dividend are available in a separate announcement which is attached.

Other than the above, there were no other material events subsequent to the end of the current quarter that have not been reflected in this interim financial report.

(j) Changes in the Composition of the Group

i) There is a deemed disposal of 340.7 million existing RWB shares by the Company for the current financial period upon the exchange of USD239.1 million of the Exchangeable Notes issued by PVLL, for existing RWB shares held by the Company. In addition, there is an issuance of 324.6 million new RWB shares for the current financial period arising from the conversion of RM827.7 million of the Notes issued by RWB. Consequently, the Company's equity shareholding in RWB has been reduced from 57.6% as at 31 December 2006 to 49.1% as at 30 September 2007. See also Note (i) i) and ii) above.

- ii) There is an issuance of 577.7 million new GIPLC shares for the current financial period arising from the conversion of SGD364.4 million of the First Convertible Bonds issued by GIPLC. In addition, GIPLC undertook a renounceable underwritten Rights Issue on the basis of 3 rights shares for every 5 existing ordinary shares held by the GIPLC shareholders as at 17 August 2007. Consequently, the Group's equity shareholding in GIPLC has been reduced from 58.5% as at 31 December 2006 to 53.5% as at 30 September 2007.
- During the period, Genting Star Limited ("GSL"), a wholly owned subsidiary of GIPLC, had entered into and completed the disposal of its 25% equity interest in New Orisol Investments Limited ("New Orisol") and all the outstanding shareholder's loans in the aggregate amount of HKD58.5 million advanced to New Orisol by GSL have been assigned to Star Cruises Asia Holding Ltd ("SC Asia"), a wholly owned subsidiary of Star Cruises Limited ("SCL"), for a total consideration of HKD58.5 million.
- iv) On 16 March 2007, the Company announced the disposal of:
 - Genting Sanyen (Malaysia) Sdn Bhd's ("GSM"), a 97.7% owned subsidiary of the Company, entire equity interests in GSM's subsidiaries which are involved in the paper and packaging businesses; and
 - the Company's 25.0 million 14% redeemable non-convertible cumulative preference shares in Genting Sanyen Industrial Paper Sdn Bhd, a wholly owned subsidiary of GSM, (jointly, the "Divestments").

On 24 July 2007, the Company announced the completion of the Divestments to Paperbox Holdings Limited for a total cash consideration of RM745.0 million.

- v) On 22 March 2007, Genting Stanley completed the disposal of its 50% interest in its international betting operations for a cash consideration of GBP1.0 million. The disposal was effective from 1 January 2007.
- vi) On 27 March 2007, GIPLC had entered into an agreement with SCL whereby GIPLC had, through its wholly owned subsidiary, Star Eagle Holdings Limited ("Star Eagle"), agreed to acquire SCL's 25% equity interest in RWS, for a purchase consideration of SGD255.0 million. GIPLC now has full control over the Integrated Resort project, *Resorts World at Sentosa* in Singapore. The acquisition was completed on 29 May 2007. As a result of the acquisition, RWS is currently a wholly owned subsidiary of Star Eagle. On 29 June 2007, GIPLC through Star Eagle further increased its investment in RWS from SGD700.0 million to SGD800.0 million by way of subscription of 100.0 million new ordinary shares for a cash consideration of SGD100.0 million.
- vii) On 13 July 2007, RWB through CIMB Investment Bank Berhad, announced that RWL had accepted an offer made by CMYL to purchase 1.01 billion ordinary shares of USD0.10 each in SCL from RWL, for a total cash consideration of HKD2.6462 billion (approximately RM1.172 billion).
 - Consequently, RWL's equity shareholding in SCL has been reduced to 19.58% as at 30 July 2007. SCL is not regarded as an associated company of RWL and RWL no longer equity accounts for SCL's financial results effective from 31 July 2007.
- viii) As at 30 September 2007, Phoenix Spectrum Sdn Bhd, a wholly owned subsidiary of the Company, has an equity interest in Landmarks Berhad of 27.2%. The equity interest has been increased to 29.6% as at 15 November 2007, via acquisitions from the open market.

Other than the above, there were no other material changes in the composition of the Group for the current financial period ended 30 September 2007.

(k) Changes in Contingent Liabilities or Contingent Assets

On 22 March 2007, Genting Stanley completed the disposal of its 50% interest in its international betting operations for a cash consideration of GBP1.0 million. In addition to this basic consideration, Genting Stanley is entitled to a share of the after tax profits from this disposed unit over the next three years, subject to a maximum aggregate of GBP5.0 million. For 2007, the share of profits will be one-third followed by 25% and 20% of the after tax profits respectively for 2008 and 2009. The impact of the 2007 share of profits have not been accounted for in the current financial period as it will be determined upon finalisation of the disposed international betting operations' year-end after tax results.

Other than the above contingent asset and the disclosure of the material litigation made in Note 11 in Part II of this interim financial report, there were no other significant changes in the contingent liabilities or contingent assets since the last financial year ended 31 December 2006.

Quarter ended 30 September 2007 compared to quarter ended 30 September 2006

The Group registered a revenue of RM2,223.8 million from continuing operations in the current quarter compared to RM1,584.9 million in the previous year's corresponding quarter, which is an increase of 40%. Increased revenue is recorded from all the business divisions of the Group with the exception of the Property Division.

The revenue from the Leisure & Hospitality Division comprises revenue derived mainly from the Genting Highlands Resort and the GIPLC Group's UK casino operations. Genting Stanley became a subsidiary of GIPLC from 6 October 2006. The revenue from the UK casino operations contributed RM376.3 million to the Division in the current quarter. The increase in the revenue is also due to the better underlying performance in the Genting Highlands Resort arising mainly from the higher volume of business.

Revenue from the Plantation Division has increased mainly due to the higher achieved palm products selling prices and higher FFB production.

The increase in revenue from the Power Division is contributed by the Kuala Langat power plant and the 100% owned Meizhou Wan Plant which acquisition was completed in May 2006.

The marginally higher revenue from the Oil & Gas Division is mainly due to the higher average oil prices.

The Group's profit before tax from continuing operations for the current quarter is RM365.7 million, a decrease of 51% compared to the previous year's corresponding quarter's profit before tax of RM742.5 million. The lower profit before tax from continuing operations for the current quarter is due to the impairment losses of RM937.8 million mainly from the impairment loss on goodwill arising from the GIPLC Group's acquisition of Genting Stanley (see Note (c) iv) in Part I of this interim financial report).

The profit before tax of all the business divisions of the Group increased in line with the higher revenue generated with the exception of the Property Division.

The lower profit before tax from continuing operations for the current quarter has been set-off by the following one-off gains:

- RM337.1 million arising from gain on disposal of investment in SCL; and
- RM137.0 million arising from dilution of the Company's shareholdings in RWB and GIPLC.

The net loss of RM12.3 million for the current quarter from discontinued operations relate to the additional costs incurred on the disposal of the paper and packaging businesses.

Current financial period to 30 September 2007 compared to previous financial year-to-date to 30 September 2006

The Group registered a revenue of RM6,234.2 million from continuing operations for the current financial period ended 30 September 2007 compared to RM4,215.3 million for the previous year's corresponding period ended 30 September 2006, which is an increase of 48%. Increased revenue is recorded from the Leisure & Hospitality, Plantation and Power divisions.

The increase in revenue from the Leisure & Hospitality Division is mainly attributable to the higher revenue from the GIPLC Group's UK casino operations which contributed RM1,191.3 million to revenue, as well as from Genting Highlands Resort. As Genting Stanley only became a subsidiary of GIPLC from 6 October 2006, no revenue contribution from Genting Stanley was included in the corresponding period in 2006. The improved underlying performance arising from the higher volume of business as a result of higher visitor arrivals and better luck factor from the premium player business resulted in the higher revenue from Genting Highlands Resort.

The higher palm products selling prices and higher FFB production resulted in the higher revenue from the Plantation Division.

Increased revenue from the Power Division came mainly from the Meizhou Wan Plant which contributed only 4 months revenue for the previous year's corresponding period ended 30 September 2006 upon the completion of its acquisition in May 2006.

The Property Division has recorded a lower revenue due to lower progress billings.

The lower revenue from the Oil & Gas Division is mainly due to the lower average oil prices.

The Group's profit before tax for the current financial period ended 30 September 2007 from continuing operations is RM2,484.9 million compared to RM1,781.9 million for the previous year's corresponding period ended 30 September 2006, an increase of 39%.

Increased profit is recorded from the Leisure & Hospitality, Plantation and Power divisions in line with the higher revenue generated.

The lower profit from the Oil & Gas Division resulted from the lower revenue as well as higher costs incurred.

The higher profit before tax from continuing operations for the current financial period ended 30 September 2007 is also due to the following one-off gains:

- RM1,026.8 million arising from dilution of the Company's shareholdings in RWB and GIPLC as well as RWB Group's investment in SCL and
- RM337.1 million arising from gain on disposal of investment in SCL.

However, the above increases have been set-off by impairment losses of RM1,016.1 million mainly from the impairment loss on goodwill arising from the GIPLC Group's acquisition of Genting Stanley.

The share of results in jointly controlled entities and associates for the current financial period ended 30 September 2007 included a share of loss of RM94.8 million from SCL compared to a share of loss of RM25.5 million for the previous year's corresponding period ended 30 September 2006. The share of results of SCL for the current financial period is based on SCL's results up to 30 July 2007 prior to the reduction of RWL's equity shareholding in SCL to 19.58%.

The net loss of RM169.5 million for the current financial period from discontinued operations relate to the paper and packaging businesses. The net loss is due to the loss arising from disposal of RM196.5 million arising mainly from the write down of the net assets related to these businesses to their fair values less cost to sell.

2. Material Changes in Profit Before Taxation for the Current Quarter as compared with the immediate Preceding Quarter

The Group registered a profit before tax of RM365.7 million from continuing operations in the current quarter as compared to RM916.3 million in the preceding quarter, reflecting a decrease of 60%.

The lower profit from continuing operations in the current quarter is mainly due to the impairment losses of RM937.8 million mainly from the impairment loss on goodwill arising from the GIPLC Group's acquisition of Genting Stanley.

The lower profit from continuing operations in the current quarter is also due to the lower one-off gains arising from dilution of the Company's shareholdings in RWB and GIPLC. Such one-off gains amounted to RM137.0 million in the current quarter compared to RM298.1 million in the preceding quarter.

The above lower profits have been partly set-off by the higher profit from the Leisure & Hospitality Division arising from the better luck factor from the premium player business in the current quarter.

There is also higher profit from the Plantation Division mainly due to higher achieved palm products selling prices and higher FFB production.

In addition, there is a one-off gain on disposal of investment in SCL amounting to RM337.1 million.

The effective tax rate of the Group for the current quarter and financial period is lower than the statutory income tax rate due to reversals of deferred tax expense attributable to the reduction in corporate tax rate in UK, non taxable income arising from one-off gains and tax incentives partly set-off by non-deductible expenses comprising mainly of impairment losses.

10. Off Balance Sheet Financial Instruments

As at 15 November 2007, the Group had the following off balance sheet financial instruments:

USD Interest Rate Swap ("IRS") and Hedging Transactions

On 29 May 2003, the Group had drawndown loans amounting to a total of USD27.58 million which were subjected to floating interest rates based on LIBOR. Of these loans, a total of USD22.06 million has been repaid to-date.

The outstanding IRS agreement entered into by the Group in respect of the loans is as follows:

Transaction Date	Effective Date of Commencement	Maturity Dates	Outstanding Contract Amounts USD'000
28 November 2003	28 November 2003	29/11/2007 to 29/05/2008	5,516

The above swaps effectively fix the interest rate payable on that tranche of the loan from the respective effective dates of commencement of contracts and up to their respective maturity dates as set out above.

These instruments are executed with creditworthy financial institutions and the Directors are of the view that the possibility of non-performance by these financial institutions is remote on the basis of their financial strength.

The Group uses derivative financial instruments including interest rate swap and currency swap agreements in order to limit the Group's exposure in relation to its underlying debt instruments resulting from adverse fluctuations in interest rates or foreign currency exchange rates and to diversify sources of funding. The related interest differentials under the swap agreements are recognised over the terms of the agreements in interest expense.
