Chairman's Statement

On behalf of the Board of Directors, I am pleased to present the Annual Report and Audited Financial Statements of the Genting Group of Companies ("Group") for the year ended 31 December 2000.

PERFORMANCE REVIEW

The Group revenue increased by 8.5% to RM3,338.6 million in 2000 (1999: RM3,077.4 million). This improvement in revenue is mainly due to the Group's Leisure and Hospitality Division, which recorded higher consumer spending and visitor arrivals. The Plantation and Property divisions, however experienced lower palm product prices and weak market conditions.

The profit performance was affected mainly by the write-off of goodwill of RM1,047.2 million arising from the acquisition of additional interest in Star Cruises Limited ("Star Cruises") and the share of loss of RM49.6 million from Star Cruises. The Group registered a pre-tax loss of RM322.7 million, resulting in a basic loss per share of 34.9 sen for the year under review, compared to a pre-tax profit of RM1,521.4 million and basic earnings per share of 156.3 sen in the preceding year. Included in the pre-tax loss for the year under review is a loss of RM308.8 million arising from the disposal of shares in NCL Holding ASA ("NCL") and an allowance of RM130.3 million for diminution in value of short-term investments.

DIVIDENDS

An interim dividend of 6.5 sen less 28% tax per ordinary share of 50 sen each or approximately RM32.9 million was paid on 31 October 2000. The Board recommends a final dividend of 12.5 sen less 28% tax per ordinary share of 50 sen each, subject to the approval of the shareholders at the forthcoming Thirty-Third Annual General Meeting. The total net dividend for the year will amount to RM96.3 million.

Penyata Pengerusi

Saya bagi pihak Lembaga Pengarah, dengan sukacitanya membentangkan Laporan Tahunan dan Penyata Kewangan Beraudit untuk Syarikat-syarikat Dalam Kumpulan Genting ("Kumpulan") bagi tahun kewangan berakhir 31 Disember 2000.

TINJAUAN PRESTASI

Hasil Kumpulan telah meningkat sehingga 8.5% kepada RM3,338.6 juta pada tahun 2000 (1999: RM3,077.4 juta). Peningkatan hasil Kumpulan khususnya diperolehi melalui Bahagian Peranginan dan Keraian, yang telah mencatatkan peningkatan dalam perbelanjaan pengguna dan ketibaan para pelawat. Bagaimanapun, bahagian Perladangan and Hartanah telah mengalami kemerosotan harga produk-produk kelapa sawit dan keadaan pasaran yang lemah.

Prestasi keuntungan telah terjejas khususnya oleh pelupusan ihsan sebanyak RM1,047.2 juta yang timbul dari pemerolehan kepentingan tambahan dalam Star Cruises Limited ("Star Cruises") dan dari perkongsian kerugian sebanyak RM49.6 juta dari Star Cruises. Kumpulan telah mencatatkan kerugian sebelum cukai berjumlah RM322.7 juta, mengakibatkan kerugian sesaham asas bernilai 34.9 sen bagi tahun tersebut, berbanding dengan keuntungan sebelum cukai berjumlah RM1,521.4 juta serta pendapatan sesaham asas bernilai 156.3 sen pada tahun sebelumnya. Kerugian berjumlah RM308.8 juta yang timbul daripada pelupusan saham-saham NCL Holding ASA ("NCL") dan satu peruntukan sebanyak RM130.3 juta untuk penyusutan nilai pelaburan-pelaburan jangka-pendek.

DIVIDEN

Dividen interim sebanyak 6.5 sen tolak 28% cukai bagi setiap saham biasa bernilai 50 sen sesaham berjumlah RM32.9 juta telah dibayar pada 31 Oktober 2000. Lembaga Pengarah mencadangkan dividen akhir sebanyak 12.5 sen tolak 28% cukai bagi setiap saham biasa bernilai 50 sen sesaham tertakluk kepada kelulusan para pemegang saham di Mesyuarat Agung Tahunan Ketiga Puluh Tiga yang akan datang. Jumlah bersih dividen bagi tahun tersebut adalah RM96.3 juta.

PERKEMBANGAN PERNIAGAAN

Bahagian Peranginan dan Keraian telah menyumbang sejumlah RM907.6 juta kepada keuntungan sebelum cukai Kumpulan pada tahun 2000 (1999: RM779.5 juta). Pelbagai kemajuan dan peningkatan telah dilaksanakan ke atas infrastruktur dan kemudahan-kemudahan yang disediakan di Genting Highlands Resort ("Resort") bagi memperkukuhkan kedudukannya sebagai destinasi terulung di Malaysia dan di Asia.

Hotel terbaru, First World Hotel, bertujuan untuk menarik para pelancong yang mementingkan penjimatan belanja dengan tawaran pakej-pakej

BUSINESS DEVELOPMENTS

The Leisure & Hospitality Division contributed RM907.6 million to the Group's profit before tax in 2000 (1999: RM779.5 million). Numerous improvements and enhancements in various facilities and infrastructure were carried out at Genting Highlands Resort ("Resort") to reinforce its status as the premier entertainment destination in Malaysia and in Asia.

The latest hotel, First World Hotel, aims to attract budget-conscious travellers with its affordable and attractive holiday packages. The hotel's first block comprising 3,300 rooms, is partly completed with 1,000 rooms opened in December 2000. Another 1,000 new rooms will be made available by mid-2001 and the remaining 1,300 rooms by end-2001. The hotel will feature many new exciting attractions such as a new Indoor Theme Park, a shopping boulevard, numerous speciality restaurants, a state-of-the-art 28-lane bowling centre and the largest convention centre in Malaysia. The total capital expenditure for the initial 3,300 rooms of First World Hotel and its new attractions is expected to be about RM800 million.

The construction of the four-lane carriage highway from the foothills at Genting Sempah to Awana Genting Highlands was completed during the year. This has reduced travelling time from Kuala Lumpur to the peak of the Resort to less than an hour. Facilities for basic amenities such as water supply, sewerage treatment and waste disposal have been expanded to cater to the needs of growing arrivals to the Resort and for future developments.

The Paper & Packaging Division completed and commissioned a new 120,000-tonne corrugated box plant within its Kuala Langat Paper Mill Complex, Selangor in the last quarter of 2000. Another similar state-of-the-art box plant is being constructed in Prai, Penang and is expected to be ready for commercial operation by the third quarter of 2001. The capital expenditure for both box plants with a total capacity of 240,000 tonnes is expected to be about RM450 million. These new box plants, once fully commissioned, will enable the Division to be an integrated value-added solutions provider of paper and corrugated products.

percutian yang menarik dan berpatutan harganya. Blok pertama hotel ini yang mengandungi 3,300 bilik telah sebahagian siap dibina dengan pembukaan 1,000 bilik pada Disember 2000. Sejumlah 1,000 bilik lagi akan dibuka menjelang pertengahan tahun 2001 dan baki 1,300 bilik dijangka siap pada akhir tahun 2001. Hotel itu juga akan mengandungi Taman Tema Dalam, sebuah jalan berhias membeli-belah, pelbagai restoran-restoran yang istimewa, sebuah pusat permainan bowling dengan 28-lorong yang canggih dan terkini serta pusat konvesyen terbesar di Malaysia. Jumlah modal perbelanjaan bagi peringkat permulaan First World Hotel dengan 3,300 bilik serta kemudahan daya tarikannya yang terbaru itu dianggarkan sebanyak RM800 juta.

Pembinaan lebuh raya empat-lorong dari kaki bukit di Genting Sempah ke Awana Genting Highlands telah siap dibina dalam tahun kajian. Ini telah memendekkan masa perjalanan dari Kuala Lumpur ke puncak Resort dalam masa kurang dari sejam. Kemudahan-kemudahan asas seperti air, rawatan pembedahan dan pembuangan sampah telah diperkembangkan bagi menampung keperluan para pelawat yang semakin meningkat ke Resort dan untuk pembangunan di masa depan.

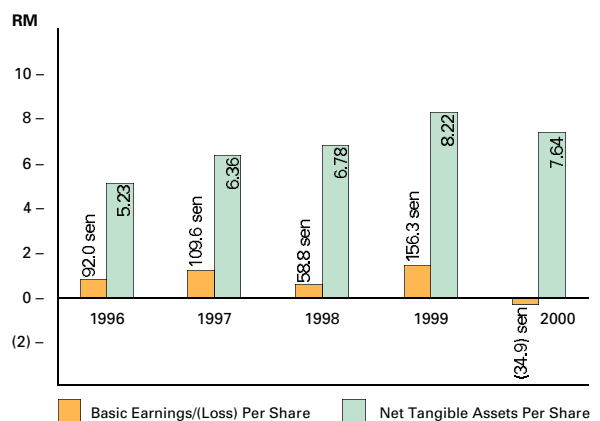

Bahagian Kertas dan Pembungkusan telah selesai membina dan menyelenggarakan sebuah loji pembuat kotak kertas gelugur yang boleh menampung 120,000 tan di persekitaran Kompleks Kuala Langat Paper Mill, Selangor pada suku terakhir tahun 2000. Sebuah lagi loji pembuat kotak yang canggih kini sedang dibina di Seberang Perai, Pulau Pinang dan dijangka siap untuk beroperasi komersil pada suku ketiga tahun 2001. Modal perbelanjaan bagi kedua-dua loji kotak ini dengan jumlah keupayaan sebanyak 240,000 tan dijangka berjumlah lebih kurang RM450 juta. Loji-loji baru tersebut apabila beroperasi sepenuhnya, akan menjadikan Bahagian ini sebagai pembekal bersepadu dan penyelesaian nilai tambahan dalam perniagaan kertas dan produk-produk gelugur.

eGenting, the IT division of the Group aims to consolidate all IT-related resources within the Group and capitalise on the latest multimedia, broadband and IT technologies to enhance the existing businesses. In August 2000, online hotel and show reservations and payment services were successfully launched for all hotels. The Siebel Customer Relationship Management software was commissioned during the year and rolled out in the first quarter of 2001 to enhance the effectiveness and efficiency of customer data management for marketing planning and implementation.

CORPORATE DEVELOPMENTS

On 29 November 2000, the Group's Leisure and Hospitality Division, via its subsidiary Resorts World Limited, invested an additional US\$442.5 million for approximately 610 million new Star Cruises shares. Star Cruises was listed on the Stock Exchange of Hong Kong Limited on 30 November 2000 and was simultaneously de-listed from the Luxembourg Stock Exchange on the same day. The Group disposed of about 29.1 million NCL shares (or 10.9% stake in NCL) for a cash consideration of NOK436.7 million (approximately RM173.8 million), to part finance the additional strategic investment in Star Cruises.

On 17 November 2000, the Group's Paper Division, Genting Sanyen Industrial Paper Sdn Bhd signed an "Implementation Document" with NKK Corporation, Japan for its proposed "Waste-To-Energy plant" project for the Green Aid Plan, which is supported by MITI Japan and the Economic Planning Unit of Malaysia. The Waste-To-Energy Plant will incinerate paper mill waste as an alternative to land-filling process and will complement the environmental efforts of the Paper Division.

APPRECIATION

On behalf of the Board of Directors, I would like to express our appreciation for the invaluable contributions made by Mr Colin Au Fook Yew who for medical reasons has resigned as an Executive Director of the Group. Consequently, Mr Teo Eng Siong ceased to be an Alternate Director to Mr Au on the Board.

I would also like to thank our shareholders, customers, the various authorities and business associates for their continuous support and confidence in the Group. My appreciation is also extended to the management and staff for their unwavering dedication, support and commitment to the Group. May we continue to work together to overcome any impending challenges and strive for further excellence ahead.

The acquisition of NCL has enabled Star Cruises to be "The First Global Cruise Line" in addition to "The Leading Cruise Line in Asia-Pacific". Star Cruises now operates a total fleet of 17 ships with over 20,000 lower berths under three brands, i.e. Star Cruises, Norwegian Cruise Line and Orient Lines. The combined fleet calls over 200 ports in Asia-Pacific, North and South America, Europe, Bermuda, Caribbean, Alaska, Mediterranean and Antarctica. Its innovative and outstanding products, services and safety excellence has won Star Cruises numerous awards during the year. These awards include the "Best Cruise Operator in Asia-Pacific" for the fourth consecutive year by Travel Trade Gazette Asia and the "Outstanding Contribution to Tourism" by the Singapore Tourism Board.

As part of Star Cruises' ongoing fleet modernisation programme, Star Aquarius, MegaStar Sagittarius (formerly Sun Viva I) and MegaStar Capricorn (Sun Viva II) were sold during the year.

The Norwegian Sun, a new 77,000-gross tonne cruise ship is expected to commence cruising in September 2001 under the NCL brand. The two Libra-class newbuilds, Norwegian Star (formerly SuperStar Libra) and Norwegian Dawn (formerly SuperStar Scorpio), will be delivered to NCL, by the end of 2001 and 2002 respectively.

Norwegian Star will be NCL's first purpose-built ship for "freestyle cruising", an innovative and original cruising concept pioneered by Star Cruises. It offers casualness and flexibility to cruisers in making their own dining arrangements, entertainment and recreation choices unlike traditional cruising. This popular concept will be extended to all ships by the end of 2001.

During the year, Star Cruises entered into an agreement with the Port Authority of Thailand to invest approximately US\$15 million in the construction, management and operation of a passenger port at Laem Chabang, Thailand, as part of its ongoing commitment to develop cruise tourism in the Asia-Pacific region.

PLANTATIONS

The Plantations Division posted a profit before tax of RM39.0 million in 2000, a 60% decline compared to the preceding year. The significantly lower contribution was attributed to the overall depressed selling prices of crude palm oil ("CPO"). The average selling price achieved for CPO was RM1,000 per tonne for 2000 (1999: RM1,445 per tonne) and for palm kernel ("PK") was RM703 per tonne in 2000 (1999: RM1,071 per tonne).

The production of fresh fruit bunches ("FFB") increased by 14% to 655,366 tonnes in 2000. As a result, the output of CPO increased to 127,587 tonnes while PK improved correspondingly to 34,612 tonnes. The processing capacity was increased from the previous 120 tonnes per hour to 155 tonnes per hour with the commissioning of the second processing line at the Sri Tanjung Oil Mill in early 2000. This increase in milling capacity diluted the capacity utilisation rate to 81% in 2000 (1999: 92%).

The Serian Palm Oil Mill, the Group's 40% joint venture with Sarawak Land Consolidation and Rehabilitation Authority ("SALCRA") continued to perform commendably and processed 153,188 tonnes of FFB, an increase of 6% over the previous year. This oil mill with a production capacity of 30 tonnes per hour, was awarded by PORLA the "Anugerah Industri Sawit Malaysia" for the third consecutive year for attaining consistently high oil extraction rates.

PROPERTIES

The overall weak property market affected the performance of the Property Division during the year. The Division posted a profit before tax of RM21.7 million in 2000 (1999: RM130.1 million).

The Indahpura Project in Kulai, Johor launched some medium-cost single and double-storey houses and shop offices. Various marketing plans such as flexible payment scheme, product packaging, value-added services, property carnivals and exhibitions were implemented to push the property sales. Despite these efforts, the property sales remained slow.

During the year, the Division completed on schedule the construction of 1,040 low-cost apartment units as part of the "Rumah Rakyat" scheme. A formal "hand-over of keys" ceremony was held on 22 October 2000 and graced by the Menteri Besar of Johor, YAB Dato' Haji Abdul Ghani bin Othman.

The Permaipura Project in Kedah did not have any new property launch during the year. Sales activities were focused on the remaining property inventories.

Awana Kijal Golf & Beach Resort, an integrated tourist-cum-housing resort project with the longest pristine beach of 7.6 km on the east coast of Peninsular Malaysia, remains the premier seaside resort among locals and expatriates. Kijal Beach Resort Apartments continue to achieve high occupancy rates from its long-staying guests and marketing efforts are being undertaken to sell off the remaining land parcels under the project.

PAPER & PACKAGING

The Division completed its second year of operation as a fully integrated Paper & Packaging business unit. The Division contributed a profit before tax of RM75.4 million to the Group, an improvement of 23% over the preceding year.

During the year, the two paper mills at the Genting Sanyen Industrial Paper Mill Complex in Kuala Langat, Selangor ("GSIP Mill Complex"), achieved a total production of 245,000 tonnes in 2000 (1999: 238,000 tonnes) and maintained its high average production efficiency of 96%.

The Paper Operations benefited from the buoyant market demand for industrial brown paper and the total sales tonnage exceeded its entire production in 2000. Its emphasis on research and development has resulted in the launching of a new and cheaper product substitute for imported Liner, in the first quarter of 2001.

The Packaging Operations continued to experience high demand for its packaging products and achieved total sales of 48,600 tonnes, a 3% increase over the previous year. The Packaging unit's new corrugated box plant at the GSIP Mill Complex was commissioned in the last quarter of 2000, with state-of-the-art corrugating and printing machinery. The 120,000-tonne capacity box plant is equipped with a high-speed corrugator, which operates at 400 meters per minute and is the fastest corrugating machine in Southeast Asia. It is also equipped with a 6-colour and an 8-colour Masterflex printers.

Another similar new box plant is being constructed in Prai, Penang and is expected to begin commercial operations by the third quarter of 2001. Once fully commissioned, these two box plants with a total capacity of 240,000 tonnes, will enable the Division to be an integrated value-added solutions provider of paper-packaging and corrugated products.

POWER

The Power Division, via the Group's 39.1% interest in Genting Sanyen Power Sdn Bhd ("GSP"), recorded a profit before tax of RM99.7 million in 2000 (1999: RM102.7 million).

GSP is an Independent Power Producer, which operates a 720 MW gas-fired combined cycle power plant. The plant, in its fifth year of full commercial operation, continued to be highly ranked in Tenaga Nasional Berhad's ("TNB") merit order dispatch schedule and therefore registered a record electricity sale to TNB in 2000.

The first Owner's paid C-Inspection (i.e. major scheduled maintenance) on one of the three ABB13E2 gas turbines was carried out during the year under review. GSP had signed an agreement for the extension of the Operations & Maintenance Contract with the existing operator for a further 10 years with improved terms and conditions. The cost of the other two remaining C-Inspections under the initial contract is included in the extension contract.

In recognition of its consistent safety practices, the Genting Sanyen Power Plant was awarded the Malaysian Society for Occupational Safety & Health Grand Award 2000.

OIL & GAS

The Oil & Gas Division, under the Group's 95%-owned subsidiary Genting Oil & Gas Limited ("GOGL") has operations in China, Indonesia and Australia.

In **China**, Genting Oil & Gas (China) Limited, a wholly-owned subsidiary of GOGL, officially took over the field operations of the Zhuangxi Buried Hill Oil Field, on 1 January 2000. Multiple well workovers were completed and electrical submersible pumps were installed. As a result, average wellhead production quadrupled to approximately 400 tonnes per day. The Division benefited from high oil prices, realising an average oil price over the year of US\$27.31 per barrel (US\$16.75 in 1999).

A number of wells have been identified for deepening or side-tracking prior to being put on production. Other wells will be converted into water injectors. This pilot project runs until March 2002, after which the Division has the option to continue operations for a further 20 years.

In **Indonesia**, GOGL's wholly-owned subsidiary, Cairns Limited has a 45% interest in the Muturi Production Sharing Contract ("PSC") located in Irian Jaya and is entitled to supply approximately 10% of the gas to the Tangguh Liquefied Natural Gas ("LNG") project. Front End Engineering and Design ("FEED") studies for the LNG plant were awarded to Chiyoda-Mitsubishi and Phillips Bechtel. Both studies will be completed by mid 2001. Additional studies on upstream FEED, port and storage facilities, infrastructure and marketing activities are ongoing.

In **Australia**, GOGL's wholly-owned subsidiary, Coveyork Pty Ltd has a 100% interest in Block WA-274-P located on the North West Shelf of Australia. Geological and geophysical studies performed during the year led to the identification and evaluation of several large prospects. Particular attention was paid to a series of wells drilled immediately to the southeast of the Division's permit that resulted in the discovery and partial delineation of a gas-condensate field. A 2D seismic programme was acquired in November 2000 and its evaluation showed that this field may extend considerably into WA-274-P.

In **Myanmar**, GOGL's wholly-owned subsidiary, Roundhay Limited relinquished Block M3 in April 2000, when it was concluded that the permit was unlikely to contain hydrocarbon in commercial quantities. An exploratory well Ye-1 was drilled in Block M4. Unfortunately, only non-commercial quantities of gas were encountered and as a result, the well was plugged and abandoned.

E-COMMERCE & IT DEVELOPMENT

The Group's E-Commerce and IT Division, E-Genting Holdings Sdn Bhd ("eGenting") comprises the MSC-status Genting Information Knowledge Enterprise Sdn Bhd ("GIKE"), E-Genting Sdn Bhd ("EGSB") and Genting Card Services Sdn Bhd. eGenting aims to consolidate all IT-related resources within the Group and capitalise on the latest multimedia, broadband and IT technologies to enhance the Group's existing businesses.

During the year under review, GIKE attained the "Microsoft Certified Solution Provider" status, which enables prompt online technical resources and support by Microsoft. In August 2000, online hotel and show reservations and payment services were successfully launched for all the hotels in the Group. The leisure and hospitality portal, www.genting.com.my currently has more than 26,000 online members and continues to attract new members.

The Data Center under EGSB provides operational customers support through shared services on data communication network, telecommunication, system administration, desktop support and network security.

The SAP Competency Center will work towards the standardisation of operations on the SAP system platform, and the implementation of common modules across the Group which includes Purchasing, Central Warehousing, HR Services and Financial Services. The Research and Development Division will continue in its system R&D, particularly in Dynamic Reporting System modification and enhancement.

Notes to the Financial Statements

31 December 2000

Amounts in RM million unless otherwise stated

1. PRINCIPAL ACTIVITIES

The Company is principally an investment holding and management company.

The principal activities of the subsidiary companies include leisure and hospitality, gaming and entertainment businesses, plantations, property development and management, tours and travel related services, investments, manufacturing and trading in paper and paper related products and oil and gas exploration.

The principal activities of the associated companies include cruise and cruise related operations and the generation and supply of electric power.

Details of the principal activities of the Group are set out in Note 39 to the financial statements.

There have been no significant changes in the nature of the activities of the Group and of the Company during the financial year.

2. BASIS OF PREPARATION

The financial statements are prepared in accordance with and comply with the applicable approved accounting standards in Malaysia and the provisions of the Companies Act, 1965. The historical cost convention modified by the revaluation of certain property, plant and equipment and land held for development, unless otherwise indicated in the individual policy statements set out in Note 3 to the financial statements, were adopted in the preparation of the financial statements.

The preparation of financial statements in conformity with the applicable approved accounting standards and the provisions of the Companies Act require the Directors to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

3. SIGNIFICANT ACCOUNTING POLICIES

Consolidation

The consolidated financial statements include the audited financial statements of the Company and all its subsidiary companies made up to the end of the financial year. Subsidiary companies are those companies in which the Group has power to exercise control over the financial and operating policies so as to obtain benefits from their activities.

Subsidiary companies are consolidated from the date on which effective control is transferred to the Group and are no longer consolidated from the date that control ceases. Subsidiary companies are consolidated using the acquisition method of accounting whereby the results of subsidiary companies acquired or disposed of during the year are included from the date of acquisition up to the date when control ceases. At the date of acquisition, the fair values of the subsidiary companies' net assets are determined and these values are reflected in the consolidated financial statements.

All material intercompany transactions, balances and unrealised gains on transactions between group companies have been eliminated; unrealised losses have also been eliminated unless cost cannot be recovered. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group. Separate disclosure is made of minority interests.

The gain or loss on disposal of a subsidiary company is the difference between net disposal proceeds and the Group's share of its net assets and exchange differences which were not previously recognised in the consolidated income statement.

Borrowing Costs

Costs incurred on external borrowings to finance expenditure and other long term qualifying assets are capitalised until the assets are ready for their intended use after which such expenses are charged to the income statement.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Property, Plant and Equipment

Property, plant and equipment are stated at cost modified by the revaluation of certain property, plant and equipment less accumulated depreciation and amortisation. In accordance with the transitional provisions issued by the Malaysian Accounting Standards Board on adoption of International Accounting Standard No. 16 (revised), Property, Plant and Equipment, the valuation of these assets have not been updated, and they continue to be stated at their existing carrying amounts less accumulated depreciation.

Surpluses arising on revaluation are credited to revaluation reserve. Any deficit arising from revaluation is charged against the revaluation reserve to the extent of a previous surplus held in the revaluation reserve for the same asset. In all other cases, a decrease in carrying amount is charged to income statement. On disposal of revalued assets, amounts in revaluation reserve relating to those assets are transferred to retained earnings.

Freehold land and plantations, and property, plant and equipment which are under construction are not depreciated.

Leasehold properties are amortised equally over their respective periods of lease, ranging from 60 to 99 years. However, leasehold properties with original lease period of 999 years are not amortised, the cumulative effect of which is not material to the financial statements.

Other property, plant and equipment are depreciated over their estimated useful lives using the straight-line method. The annual rates of depreciation used for the major classes of property, plant and equipment are as follows:

Buildings and improvements	2% – 50%
Plant, equipment and vehicles	5% – 50%

Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. In determining the recoverable amount of items of property, plant and equipment, expected future cashflows have not been discounted to their present value.

New Planting and Replanting Expenditure

New planting expenditure incurred on land clearing and upkeep of trees to maturity is capitalised under freehold and leasehold land respectively. New planting expenditure capitalised under freehold land is not amortised while those capitalised under leasehold land are amortised in accordance with the depreciation policy of the Group.

Replanting expenditure is charged to the income statement in the year in which the expenditure is incurred.

Real Property Assets, Property Development and Profit Recognition

Real property assets and property development comprise of land held for development and are stated at cost of acquisition modified by the revaluation of certain pieces of land. In accordance with the transitional provisions issued by the Malaysian Accounting Standards Board on adoption of Malaysian Accounting Standard No. 7, Accounting for Property Development, the valuation of these pieces of land have not been updated, and they continue to be stated at their carrying amounts. Cost of acquisition includes all related costs incurred on activities necessary to prepare the land for its intended use. These assets remain as real property assets until the sales launch of these properties, after which they are transferred to property development.

Assets under property development comprise land at carrying values and all related development costs incurred and are carried forward together with profit accrued to the appropriate stage of completion less progress billings and allowance for foreseeable losses, if any. These developments are expected to be completed within normal operating cycle of one to three years and are considered as current assets.

Upon completion of development, the unsold completed development properties are transferred to inventories.

Profits on property development projects are recognised based on the percentage of completion method. Under this method, profits are recognised as the property project progresses. The stage of completion is determined based on the proportion of development costs incurred for work performed up to the balance sheet date over the estimated total development cost to completion. Profits are, however, recognised only in respect of sales where agreements have been finalised. Foreseeable losses, if any, are recognised in the income statement.

Investments

Long term investments, both quoted and unquoted, include investments in subsidiary companies, associated companies and other non current investments. These investments are stated at cost except where the Directors are of the opinion that there is a permanent diminution in the value of an investment, in which case the investment is written down. Permanent diminution in the value of an investment is recognised as an expense in the financial period in which it arises.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Investments (Cont'd)

Investments in subsidiary companies are eliminated on consolidation while investments in associated companies are accounted for by the equity method of accounting.

Associated companies are companies in which the Group exercises significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the associated companies but not control over those policies.

Unrealised gains on transactions between the Group and its associated undertakings are eliminated to the extent of the Group's interest in the associated undertakings; unrealised losses are also eliminated unless the transaction provides evidence of impairment on the assets transferred.

Equity accounting involves recognising in the income statement the Group's share of the associated companies' profits less losses for the year. The Group's interest in associated companies is stated at cost net of goodwill written off plus adjustments to reflect changes in the Group's share of the net assets of the associated companies.

Short term investments are stated at the lower of cost and market value, determined on a portfolio basis by comparing aggregate cost against aggregate market value.

Exploration Cost

Exploration cost is accounted for in accordance with the full cost method. Under this method, all costs relating to the exploration activities are capitalised when incurred. Where it is determined that the exploration activities will not yield significant oil and gas discoveries, the related exploration cost will be written off to the income statement.

Goodwill

Goodwill arising on consolidation which represents the excess of the purchase price over the fair value of the net assets of the subsidiary/associated companies at the date of acquisition, is written off to the income statement in the year of acquisition.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost includes, where relevant appropriate proportions of overheads and is determined on a weighted average basis. Net realisable value is the estimate of the selling price in the ordinary course of business, less costs to completion and selling expenses. Allowance is made for obsolete and slow moving inventories in determining net realisable value.

Receivables

Receivables are carried at estimated realisable value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at the financial year end. Bad debts are written off during the financial year in which they are identified.

Derivative Financial Instruments

Derivative financial instruments, which include interest rate swap agreements and interest rate and currency swap agreements, are used in the Group's risk management of foreign currency and interest rate risk exposures of its financial liabilities.

The Group uses interest rate swap agreements and interest rate and currency swap agreements in order to lower funding costs, to diversify sources of funding and to limit the Group's exposure in relation to underlying debt instruments resulting from adverse fluctuations in interest rates or foreign currency exchange rates.

Hedge accounting principles are applied for the accounting of the underlying exposures and their respective hedge derivative instruments. The related interest differentials paid or received under the swap agreements are recognised over the terms of the agreements in interest expense. The underlying foreign currency liabilities, which have been effectively hedged by currency swap agreements, and designated as a hedge, are translated in the respective hedged currencies, at their prevailing rates as at the reporting date.

Provision for Retirement Gratuities

In 1991, the Board introduced a retirement gratuity scheme for executives and executive directors of the Company and certain subsidiary companies. The amount of the provision for the retirement gratuities is determined by the Board and is discretionary.

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Deferred Taxation

Deferred tax accounting using the 'liability' method is adopted by the Group. Deferred taxation provides for the effects of all material timing differences between accounting income and taxable income arising from the inclusion of items in different periods. No future income tax benefit is recognised in respect of unutilised tax losses and timing differences that result in a net deferred taxation asset unless it can be demonstrated that these benefits can be realised in the foreseeable future.

Foreign Currencies

The financial statements are stated in Ringgit Malaysia ("RM").

Transactions in foreign currencies have been translated into RM at the rates ruling on the dates of the transactions. Monetary assets and liabilities in foreign currencies at the balance sheet date have been translated at the rates ruling on that date. Gains and losses arising from translation are included in the income statement. However, translation gains and losses arising from transactions which provide an effective hedge against investments in foreign currencies are taken to reserves. The corresponding translation gains and losses arising from such investments are recognised in the reserves on exchange differences.

Income statements of subsidiary and associated companies in other reporting currencies are translated into RM at average rates for the year and the balance sheets are translated at the year end rates. Exchange differences arising from the translation of income statements at average rates and balance sheets at year end rates, and the restatement at year end rates of the opening net investments in such subsidiary and associated companies are taken to reserves.

The principal rates of exchange used in translation are as follows:

Cash and Cash Equivalents

Cash and cash equivalents include cash and bank balances (net of bank overdrafts), deposits and other short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

Revenue Recognition

Sales are recognised upon delivery of products or performance of services, net of sales tax and discounts, and after eliminating sales within the Group. The sales relating to property development projects are recognised progressively as the project activity progresses and are in respect of sales where agreements have been finalised. The recognition of sales is based on the percentage of completion method and is consistent with the method adopted for profit recognition. Sales of short term investments are accounted for when the contracts are executed. Casino revenue represents net house takings. The casino licence is renewable every three months.

Dividend income is recognised when the right to receive payment is established.

Proposed Dividends

Dividends on ordinary shares are accounted for in shareholders' equity as an appropriation of retained earnings in the financial year in which they are declared or proposed.

per share amounting to a total sale consideration of NOK42,153,000 (approximately RM16.8 million) subject to the condition that in the event Arrasas pays more than NOK15 per share to acquire further shares of NCL in subsequent transactions, Arrasas shall pay to GOHL the difference between the purchase price that would have been paid to GOHL calculated using such higher price per share and NOK42,153,000.

The disposal price was arrived at on a willing buyer willing seller basis and after taking into consideration the closing price of NOK15 per NCL share on 23 November 2000. The sales consideration of NOK42,153,000 has been received in full during the financial year.

The disposal has been approved by the Board of Directors of the Company and GOHL on 24 November 2000.

The nature and extent of the interest of the directors concerned are as set out below:

- Tan Sri Lim Goh Tong – Shareholder of SCL and a preference unit holder of the Golden Hope Unit Trust (“GHUT”), which is a substantial shareholder of SCL and of which Golden Hope Limited (“GHL”) is acting as its trustee, and has a deemed interest in the units of the GHUT by virtue of being a beneficiary of a discretionary trust which holds the units in the GHUT.
