The Group via Genting International P.L.C. ([www.gentinginternational.com](http://www.gentinginternational.com)) is a leading resort development specialist with over 20 years of international gaming expertise and global experience in developing, operating and/or marketing internationally acclaimed casinos and integrated resorts in different parts of the world, including Australia, the Americas, Malaysia, the Philippines and the United Kingdom ("UK").

Genting International has 46 casino properties in the UK under the brands of the Stanley Leisure group. In Singapore, it is developing Resorts World at Sentosa, an integrated leisure and entertainment resort on Sentosa Island.

The Genting Group was founded in 1965 by Tan Sri Lim Goh Tong with the development of a beautiful highlands resort, named Genting Highlands Resort ([www.genting.com.my](http://www.genting.com.my)). Located about 58 kilometres from Kuala Lumpur in Malaysia, it is now one of the world's leading integrated entertainment resorts, attracting 18.5 million visitors in 2006.

Under the leadership of Tan Sri Lim Kok Thay, the Genting Group continues to grow from strength to strength. His commitment to excellence, innovation and growth has resulted in the birth of premier global brand names.

Genting Highlands Resort was voted the World's Leading Casino Resort 2005 and Asia's Leading Casino Resort 2005 & 2006 by World Travel Awards.

The resort offers 6 hotels with 10,000 rooms, 60 fun rides, 170 dining and shopping outlets, mega shows, international business convention facilities and endless entertainment – all in one location.

At 2,000 metres (6,000 feet) above sea level, it enjoys fresh cool climate all year round and splendid views of its natural surrounding highlands.

One of its hotels, First World Hotel is the world's largest hotel with 6,118 rooms (officially acknowledged by Guinness World Records and Ripley's Believe It Or Not).

The Group is also involved in power generation where Genting Power is a considerable force in the industry with interests in seven power plants operating in China, India and Malaysia with a net attributable capacity of close to 1,500 MW. Its 720MW gas-fired combined cycle Kuala Langat power plant is one of the most efficient power plants in Malaysia. The 724MW coal-fired Meizhou Wan power plant in Fujian, China is the Group's first 100%-owned power generation asset.

The Plantation division, under Asiatic Development Bhd ([www.asiatic.com.my](http://www.asiatic.com.my)), one of the lowest cost palm oil producers in Malaysia. Asiatic has established itself as a reputable and reliable crude palm oil producer. It has some property development projects in the states of Johor, Kedah and Melaka and has a joint venture to develop and convert 98,300 hectares of land into oil palm plantation in Indonesia over a 10-year period.

## Chairman's Statement

*"We will continue to  
build and grow premier brands of  
excellence"*

On behalf of the Board of Directors, I am pleased to present to you the Annual Report and Audited Financial Statements of the Genting Group of Companies ("Genting Group" or "Group") for the financial year ended 31 December 2006.

## PERFORMANCE REVIEW

It has been a record year of performance as all business divisions posted higher revenues. Group revenue increased by 27% to a new high of RM6.9 billion (2005: RM5.5 billion).

The good revenue performance was mainly due to higher business volume generated by the Leisure and Hospitality Division, especially from Genting Highlands Resort. In addition, Stanley Leisure plc ("Stanley Leisure"), which effectively became an indirect subsidiary from 6 October 2006, contributed RM423.6 million.

The increase in revenue from the Power Division was mainly from the division's power plants in China. In addition, the Malaysian power plant posted higher revenues as no major maintenance works were undertaken in 2006, compared to the previous year in which all of its turbines underwent major inspection and maintenance.

The Plantation Division benefited from higher crude palm oil prices and an increase in the output of fresh fruit bunches. Higher progress billings from properties sold also benefited the Property Division. Higher oil prices benefited the Oil & Gas Division while higher paper selling prices and volume sold benefited the Manufacturing Division.

The Group's profit before tax reached a record high of RM2.7 billion (2005: RM2.4 billion). All business divisions registered better profits, except for the Manufacturing Division, which incurred asset impairment losses and higher production costs.

A one-off gain of RM169.7 million was recorded, arising from the disposal of the entire stake of 29.6% in London Clubs International ("LCI") in 2006, by a subsidiary, Genting International P.L.C ("Genting International"). The share of results in jointly controlled entities and associates included a loss of RM210.8 million from Star Cruises Limited ("Star Cruises"), as compared to a share of profit of RM11.8 million in 2005.

## BASIC EARNINGS PER SHARE

An interim dividend of 12.0 sen less tax per ordinary share of 50 sen each (2.4 sen less tax per ordinary share of 10 sen each) amounting to RM60.9 million, was paid on 31 October 2006.

## CORPORATE DEVELOPMENTS

During the year, we successfully expanded our presence in the UK, Singapore, Malaysia and China. Several capital raising exercises were undertaken to strengthen our balance sheet and position the Group for further growth.

Our subsidiary, Genting International expanded into the UK casino gaming market with the acquisition of **Maxims Casino Club ("Maxims")**, one of a select and limited number of high-end casinos in London, in January 2005. Subsequently Genting International successfully acquired **Stanley Leisure**, the UK's largest casino operator, for £613.2 million. Stanley Leisure became a subsidiary of Genting International on 6 October 2006.

Genting International now owns and operates 46 casinos in the UK, including four of London's most prestigious casinos – Crockfords, The Colony Club, The Palm Beach and Maxims.

On 22 March 2007, Stanley Leisure disposed its 50% interest in its international betting operation for a consideration of £1 million and a deferred share of profit for the next three years. The disposal of the international betting operation will enable Genting International to focus on its casino gaming operations in the UK.

## TOTAL ASSETS

## NET ASSETS PER SHARE

On 20 October 2006, Genting International sold its entire 29.6% equity interest in LCI for a cash consideration of £89.6 million to Harrah's Entertainment Inc. On 3 February 2006, Genting International via a joint venture company acquired three Kensington-based properties in London for £109.4 million.

In Singapore, the Genting International - Star Cruises consortium (working in conjunction with some of the world's most famous leisure and entertainment brands including Universal Parks and Resorts) was awarded the contract to build an integrated resort by the Singapore Government on 8 December 2006. The S\$5.2 billion integrated resort project named **Resorts World at Sentosa** will be developed on Sentosa Island, Singapore and is expected to commence operations by early 2010.

Genting International, which had a 75% stake in Resorts World at Sentosa, proposed to acquire the remaining 25% stake held by Star Cruises for S\$255 million, subject to shareholders' approval on 28 May 2007. This will enable Genting International to have full control of Resorts World at Sentosa. On 16 April 2007, a groundbreaking ceremony was held to commemorate the start of construction.

The shares of Genting International were de-listed from the Euro MTF Market of the Luxembourg Stock Exchange with effect 22 March 2007. The shares will continue to be listed on the Main Board of the Singapore Stock Exchange.

In Malaysia, the Group acquired a 16.65% interest in Landmarks Berhad ("Landmarks") for RM160 million on 18 August 2006 and subsequently increased its stake to 25% during the rest of the year. Listed on the Main Board of Bursa Malaysia, Landmarks is involved in hotels, properties, power and healthcare activities. The stake in Landmarks forms part of the Group's portfolio of strategic investments in the leisure and hospitality industry.

On 16 March 2007, the Genting Group announced the divestment of its paper and packaging businesses held under Genting Sanyen (Malaysia) Sdn Bhd, for a total cash consideration of RM745 million to CVC Asia Pacific Ltd. The disposal will enable the Group to focus its resources on its core businesses.

### Capital and Funding

On 21 September 2006, Resorts World Bhd ("Resorts World") issued RM1.1 billion of convertible notes to be used for working capital, investments and/or acquisitions relating to the Group's principal businesses in leisure, hospitality and gaming. As at 11 May 2007, RM517.4 million of the convertible notes had been converted into 202.9 million new ordinary shares of RM0.10 of Resorts World.

On 12 December 2006, 33 million new ordinary shares of RM0.50 each of Genting Berhad were issued and placed to investors, raising total proceeds of RM1.04 billion.

On 12 January 2007, Genting International issued S\$425 million convertible bonds due in 2012. On 26 April 2007, a second issue of S\$450 million convertible bonds due in 2012, was undertaken. The proceeds of the first issue were mainly used to finance the acquisition of the resort land on Sentosa. The proceeds of the second issue will be used to finance the acquisition of Star Cruises' 25% interest in Resorts World at Sentosa and the development of this integrated resort.

A share split exercise for Genting Berhad was completed and listed on 16 April 2007, resulting in the creation of five ordinary shares of RM0.10 par value each for every one ordinary share of RM0.50 held. This exercise should improve affordability and encourage more investors to invest in our shares.

## BUSINESS DEVELOPMENTS

As one of the world's leading integrated leisure and entertainment destinations, **Genting Highlands Resort** ("Resort") was a key contributor to the nation's tourism growth in 2006. The Resort was voted as the *World's Leading Casino Resort (2005)*, *Asia's Leading Casino Resort (2005 and 2006)* and *Malaysia's Leading Resort (2006)* by World Travel Awards. In 2006, the Resort attracted 18.5 million visitors.

Throughout the year, the Resort mesmerised visitors with magnificent shows, star-studded concerts and world-class entertainment - providing fun and memorable moments for the entire family.

Among the shows held in 2006 was "*Mysteria*", a popular daily resident show produced by the Group showcasing world-class international performers. International acclaimed artistes such as Connie Francis, Lobo, Tony Orlando, Smokie and canto-pop

superstars from Hong Kong, Singapore and Taiwan performed at the Resort.

**First World Hotel** was officially acknowledged as the **World's Largest Hotel** by the Guinness World Records and Ripley's Believe It or Not in 2006. New facilities were introduced at First World Hotel such as the new First World Fitness Centre and innovative self-service check-in kiosks.

**Maxims**, the super luxury brand accommodation of the Resort continued to cater exclusively for our premium hotel guests. Two new premier brand products were launched. The new **Club Elite** was opened in December 2006. Offering 86 luxurious suites in Highlands Hotel, it is set to be another eminent place for our elite patrons who appreciate refined living and exclusivity. New restaurants for fine dining and a high-end buffet were introduced to complement the offerings of Club Elite. The newly refurbished **VIP** room provides a stylish and comfortable ambience for premier customers.

During the year, the existing rooms and hotel lobby of **Resort Hotel** were modernised to reflect a stylish and contemporary look.

**The Bakery** and **Lobby Café** were refurbished to offer a refreshing dining experience. **Ming Ren**, the Group's lamb specialty restaurant was relocated to the walkway level of **Highlands Hotel**.

**Genting Theme Park** continued to captivate visitors with 60 rides and attractions. New rides such as *Mini Train* at the First World Indoor Theme Park and *Pirate Ship* at the Outdoor Theme Park were introduced.

The Group has constantly improved the road infrastructure and upgraded our transportation vehicles to ensure safe, comfortable and convenient travel to and from the Resort. A new residential staff complex will be ready by July 2007 to cater to the increasing staff population at the Resort.

**WorldCard**, the Group's customer loyalty programme grew to over 2.2 million members in 2006. The *Awana* chain of hotel resorts was refurbished to improve its offerings to customers.

In the UK, since Stanley Leisure became a subsidiary of Genting International on 6 October 2006, we have continued to refurbish and upgrade its existing and new casinos. Five new gaming licences were granted in 2006, one for a brand new casino and four for relocations of existing casinos to significantly improved premises. Two new gaming licences have been granted since the beginning of 2007, of which one is for a relocation. Another five gaming licence applications have been submitted under the 1968 Gaming Act and are being processed.

**Star Cruises**, the record nine-time winner of the **Best Cruise Operator in Asia-Pacific** by TTG Asia added two new 93,500-tonne ships to its US operations in 2006, as part of its ongoing fleet renewal programme. The **Pride of Hawaii** is the third and final vessel to join the NCL America fleet in April and is the largest US-flagged passenger ship ever built. The **Norwegian Pearl**, featuring the industry's first four-lane ten-pin bowling alley, joined the NCL fleet in November 2006.

The Asian fleet continued to offer a combination of regular and special cruises, providing new destination choices and cruise itineraries on ships like **SuperStar Virgo** and **SuperStar Gemini**. NCL's **Norwegian Wind** will be renamed as **SuperStar Aquarius** and will join the Star Cruises brand fleet in June 2007. Plans are underway to build three new 150,000-gross tonne cruise ships (the third new ship is optional) under the NCL brand, for delivery between 2009 and 2011. The ships will represent a new generation of *Freestyle Cruising* vessels for NCL.

The **Power Division** acquired the remaining 73.8% interest in the 724MW Meizhou Wan power plant in China for US\$155.3 million. The acquisition, completed on 26 May 2006, has enabled the Group to operate and manage its first 100%-owned power plant.

The **Plantation Division** recorded higher oil palm production in 2006, mainly from its oil palm estates in Sabah, East Malaysia. In 2006, the area planted with oil palm increased to 59,534 hectares (2005: 58,318 hectares). The Division commenced its joint venture project in Kalimantan, Indonesia with the establishment of the first pre-nursery and main nursery sites. Further planting of this land will continue over the next few years.

The **Property Division's** flagship project, Asiatic Indahpura is a fast growing mixed residential and commercial township in Kulai, Johor. Strategically located in the Iskandar Development Region, Asiatic Indahpura is set to benefit from the potential growth and economic development of this area.

The **Oil & Gas Division**, via the onshore Zhuangxi Buried Hill Oilfield in China's Shandong Province, produced 209,250 tonnes (1.44 million barrels) of oil in 2006.

Two potentially significant exploration discoveries were made in 2006. In August, dry gas and gas condensate were discovered in the Anambas-1X exploration well in West Natuna, Indonesia. In November, the drilling and testing of two offshore Ande Ande Lumut exploration wells were completed, in which oil was discovered. Further evaluation of these discoveries will be undertaken to determine the reserve size and development potential.

In addition, the division acquired a new petroleum contract in offshore Morocco and began exploration activities in 2006.

As a caring and responsible corporation, the Group supports various charitable bodies, non-governmental organisations, educational institutions, health organisations, sports associations and other worthy causes in the country.

## PROSPECTS

The Genting Group will continue to review and develop effective strategies for business expansion. The developments in the leisure, entertainment and gaming industries globally as well as in the power, plantation and oil & gas industries present potential opportunities for us to continue to grow. Barring any unforeseen circumstances, we should continue to perform well in 2007.

## APPRECIATION

I would like to extend my appreciation to our distinguished members of the Board, who have provided valuable insights to the Group throughout the year.

Mr. Quah Chek Tin retired as the Executive Director and Chief Operating Officer of the Group with effect from 8 October 2006, upon reaching his retirement age. On behalf of the Board, I would like to extend our thanks and appreciation to him for his 27 years of dedicated service and contribution. # 主席文告

## “我們將持續努力不懈，打造卓越品牌並發揚光大”

本人謹代表董事部向您呈獻雲頂集團（以下簡稱‘雲頂集團’或‘本集團’）截至2006年12月31日的常年報告及已審核財政報告。

### 業績回顧

這是另一個喜唱豐收的年頭，因各組業務的營業額皆紛紛上揚。本集團的營業額增長27%，創下六十九億令吉（2005年：五十五億令吉）的新高記錄。

出色的營收表現主要歸功於休閒與酒店組，尤其是雲頂高原勝地。此外，從2006年10月6日起成為本集團間接子公司的史丹尼休閒有限公司（簡稱‘史丹尼休閒’），其四億二千三百六十萬令吉的營業額也納入本組營收。

電力組的營業額有所增加，主要歸功於中國的電力廠。此外，馬來西亞電力廠也取得較高的營業額。這是因為該廠在2006年未進行重大維修工作，而在前一年，所有主要氣體渦輪都進行重大檢查與維修。

種植組則受惠於原棕油售價上漲與新鮮棕果串產量提升。已售出產業取得較高的陸續進賬收入，有利於產業組之表現。油價走高令石油天然氣組受惠，而紙張售價與銷量皆提升，則惠及製造組2006年的表現。

本集團稅前盈利再創高記錄，達到二十七億令吉（2005年：二十四億令吉）。除了製造組之外，所有組別業務都取得較佳盈利表現，這是因為製造組蒙受資產減值虧損，以及承擔較高的生產成本。

屬下子公司雲頂國際售出倫敦俱樂部國際有限公司（簡稱‘LCI’）的29.6%股權，而在2006年取得一億六千九百七十萬令吉的一次性賺利。本集團2006年在合營公司與聯號中所佔的虧損份額，是來自在麗星郵輪有限公司（簡稱‘麗星郵輪’）的二億一千零八十萬令吉，相比之下，2005年所佔的盈利則是一千一百八十萬令吉。

### 股息

本集團的政策是在派息的同時，預留部分資金作為未來投資與業務擴展之用，並讓三者之間維持合理的平衡。

每股12.0仙（扣除稅款及面值50仙）或2.4仙（扣除稅款及面值10仙），總值高達六千九百九十萬令吉的中期股息已于2006年10月31日支付。董事部建議本年度的終期股息總額為每股4.0仙（扣除稅款及面值10仙），並將在來臨的第39屆股東大會提出，由股東批准。2006年分發的每股股息總額，從上一年的5.8仙增加10.3%至6.4仙。

### 企業發展

在2006年，我們成功擴充在英國、新加坡、馬來西亞與中國的業務，邁向新的里程碑。本集團進行了數項籌資計畫，為進一步成長與加強我們的資產負債表作好準備。

2005年1月，雲頂國際在英國收購倫敦少數的高檔賭場——**美星賭場俱樂部**（簡稱‘美星’）後，開始涉足賭博市場。我們也過後成功在2006年以六億一千三百二十萬英鎊收購英國最大賭場經營者——史丹尼休閒。史丹尼休閒於2006年10月6日成為雲頂國際之子公司。

雲頂國際現擁有並經營英國46間賭場，包括倫敦最著名的Crockfords、The Colony Club、The Palm Beach 與美星。

史丹尼休閒於2007年3月22日以一百萬英鎊價格，與分享未來三年延后盈利份額，來脫售其國際投注業務之50%股權。脫售國際投注業務，將讓雲頂國際更專注於發展英國的賭場業務。

雲頂國際在2006年10月20日以八千九百六十萬英鎊的現金價格，售出LCI的29.6%股權於Harrah's Entertainment Inc。雲頂國際透過一間聯營公司于2006年2月3日收購倫敦三項肯辛頓產業，價值一億零九百四十萬英鎊。

在新加坡，雲頂國際—麗星郵輪財團，配合一些國際知名休閒與娛樂品牌如環球主題公園以及名勝世界，成功獲得新加坡政府于2006年12月8日頒發的綜合名勝建築合約。這個命名為**聖淘沙名勝世界**的綜合名勝計畫耗資五十二億新元，將坐落在新加坡聖淘沙島，預料于2010年初正式開業。

雲頂國際擁有聖淘沙名勝世界75%的股權。雲頂國際建議以二億五千五百萬新元收購麗星郵輪所持有的25%股權後（需由股東在2007年5月28日批准後），雲頂國際將全面掌控聖淘沙名勝世界。這個計畫在2007年4月16日舉行動土禮，象徵著建築工程之開始。

雲頂國際股票于2007年3月22日起，從盧森堡股票交易所歐盟替代市場（Euro MTF）除牌。有關股票將繼續在新加坡股票交易所主要板上市。

在馬來西亞，本集團于2006年8月18日以一億六千萬令吉收購龍馬有限公司（簡稱‘龍馬’）的16.65%股權，過后在其餘的一年內再增持至25%。龍馬在大馬股票交易所主板上市，涉及酒店、產業、電力與保健等業務。收購龍馬股權，是配合本集團在休閒與酒店業所進行的組合式策略投資。

雲頂集團于2007年3月16日宣佈以七億四千五百萬令吉現金價格，脫售雲頂杉原（馬）私人有限公司屬下的紙品與包裝業務。這項脫售行動可讓本集團更專注資源於核心業務。

## 資本與融資

在2006年9月21日，名勝世界有限公司（簡稱‘名勝世界’）發行十一億令吉可轉換票據以作為營運資本，及資助本集團在休閒、酒店與博彩等主要業務之投資與/或收購活動。截至2007年5月11日，總值五億一千七百四十萬令吉的可轉換票據已轉換為名勝世界二億二百九十萬股新普通股，每股面值0.10令吉。

在2006年12月12日，本集團發行與配售雲頂的三千三百萬新普通股給投資者，已籌獲十億零四千萬令吉的資金。

本集團于2007年1月12日，雲頂國際發行四億二千五百萬新元的可轉換債券將在2012年到期。在2007年4月26日，我們發行了第二批價值四億五千萬新元的可轉換債券（2012年到期）。首批發行所籌獲的資金已作為收購聖淘沙名勝的土地之用。第二批發行所籌獲的資金將作為收購麗星郵輪的25%聖淘沙名勝世界股權與聖淘沙名勝世界的發展資金。

在2007年4月16日完成與上市的雲頂公司股票分拆計畫，使原本每股面值0.50令吉的一股股票，在分拆後變成每股面值0.10令吉的五股股票。這項股票分拆計畫鼓勵更多投資者投資我們的股票。

## 業務發展

作為世界首屈一指的綜合休閒與娛樂勝地之一，**雲頂高原勝地**（以下簡稱‘勝地’）是2006年國家旅遊業成長之主要貢獻者。勝地獲得世界旅遊大獎（World Travel Awards）投選為**世界首要賭場名勝（2005年）、亞洲首要賭場名勝（2005與2006年）以及馬來西亞首要名勝（2006年）**，並成功于2006年吸引多達一千八百五十萬名到訪遊客。

這一年來，勝地透過炫麗奪目的精彩演出、星光熠熠的演唱會以及世界級的娛樂表演，讓遊客們陶醉其中、樂而忘返，也為一家大小帶來無窮歡樂和美好回憶。2006年的重量級表演包括“Mysteria” – 這支由本集團製作的常駐表演節目雲集了世界一

流的國際表演者，備受觀眾歡迎。享譽國際的藝術大師如 Connie Francis、Lobo、Tony Orlando 與Smokie，以及香港、新加坡與台灣流行歌手也在勝地精彩演出。

**第一大酒店**在2006年的世界健力士大全與利普裡信不信由你世界記錄中，正式成為世界最大酒店。第一大酒店的新設備包括嶄新的第一大酒店健身中心與自助登記入住的創新系統。

美星（Maxims）是勝地的超級豪華酒店品牌，專為酒店的貴賓級客戶精心設立。我們推出了兩個新的首要產品品牌。嶄新的精英俱樂部（Club Elite）在2006年12月開張。精英俱樂部設立了八十六間豪華套房在高原酒店，讓博彩精英齊聚一堂，享受豪華尊貴的卓越生活。專為精英俱樂部而設立的精緻餐飲服務與高檔自由餐廳也已開始投入運作。新裝潢的貴賓室（VIP）則讓貴賓們享受舒適時尚的氛圍。

這一年來，名勝酒店的現有客房與酒店大廳都進行了翻新和現代化工程，展現時髦且富有時代氣息的優雅外觀。

兩家餐廳The Bakery 與 Lobby Cafe 在重新裝潢之後，為旅客帶來嶄新的飲食體驗。本集團的羊肉專賣餐館一名人餐廳搬遷到高原酒店的步道樓層。

**雲頂主題公園**的60個遊樂乘騎裝置與景點繼續吸引大量遊客前來遊玩。新推出的乘騎裝置包括第一大酒店室內主題公園的迷你火車（Mini Train）與戶外主題公園的海盜船（Pirate Ship）。

本集團不斷提升勝地的道路設施與交通服務，以確保訪客順利安全地抵達勝地。我們新的員工宿舍大廈將在2007年7月竣工，以應付日益龐大的員工人數。

在本集團客戶忠誠計畫下所推出的環通卡，2006年會員人數突破二百二十萬名。阿娃娜連鎖酒店也完成裝潢翻新工程，以提升名勝的相關設施。

在英國，史丹尼休閑于2006年10月6日成為雲頂國際的子公司后，我們也陸續為現有賭場與新賭場進行裝修與改進工程。于2006年獲頒的5張新博彩執照，其中一張是新品牌賭場，另外四家則是將現有賭場搬遷到更高級優質的場所。自2007年初以來，我們已獲得另兩張新博彩執照，其中一張供搬遷之用。在1968年博彩法令下申請的另外5張博彩執照則正在處理當中。

連續第九次獲得TTG旅遊大獎頒發“亞太區最佳郵輪業者”的**麗星郵輪**，在其持續更新船隊的計畫下，已于2006年在美國增加兩艘全新九萬三千五百公噸位郵輪。有史以來最大艘的美國客船 - **夏威夷之傲 (The Pride of Hawaii)**，是第三艘也是最後一艘在4月份加入NCL美國船隊的郵輪。擁有業內首創的四道十球瓶保齡球場的**挪威珍珠 (Norwegian Pearl)**，則在2006年11月加入NCL美國船隊。

亞洲船隊繼續提供結合例常路線與專用郵輪的全面服務，由**處女超級星號**和**雙子超級星號**提供全新旅遊到達站與郵輪路線。NCL美國品牌**挪威風號 (Norwegian Wind)** 重新被命名為**寶瓶超級星號 (SuperStar Aquarius)**，並將在2007年6月加入麗星郵輪品牌船隊。擬議中的計畫還包括在NCL美國品牌下，興建三艘十五萬總公噸位郵輪（第三艘屬選擇性），預計在2009年至2011年期間完成。這支船隊代表著NCL美國品牌的新生代自由式郵輪船隊。

**電力組**以一億五千五百三十萬美元收購中國湄州灣724兆瓦發電廠其餘的73.8%股權。這項收購行動在2006年5月26日完成，讓本集團營運與管理首個獨資發電廠。

**種植組**在2006年取得更高的棕油產量，主要歸諸于東馬沙巴州的油棕園。在2006年，已種植油棕的面積增加至五萬九千五百三十四公頃（2005年：五萬八千三百一十八公頃）。種植組展開在印尼加里曼丹的聯營計畫，設立首個幼苗培育與主要培育中心。未來幾年內將繼續在相關土地上栽種油棕。

**產業組**的旗艦計畫，即亞地種植優美城（Asiatic Indahpura）是柔佛州古來迅速成長的綜合住宅與商業城鎮。坐落在依斯干達經濟特區，將使亞地種植優美城從這個特區的成長潛能與經濟發展中受惠。

**石油天然氣組**透過中國山東省海岸經營的莊西古潛山油田（Zhuangxi Buried Hill Oilfield），在2006年生產二十萬九千兩百五十公噸（一百四十四萬桶）石油。

2006年，我們進行了兩項重大的探測發現。8月份，印尼West Natuna的Anambas-1X探測油井發現干氣和冷凝氣，11月則完成Ande Ande Lumut兩個岸外探測油井的勘探與測試工作，其中發現了石油。我們會對這些發現作進一步評估，以鑑定蘊藏量與發展潛能。

此外，石油與天然氣組也在摩洛哥岸外爭取到一份新的石油生產合約，並在2006年開始探測工作。

作為一家深具社會責任感與使命感的企業，本集團資助各類慈善團體、非政府組織、教育機構、衛生組織、體育協會與國內其他值得關注之項目活動。

## 前景

雲頂集團將繼續檢討與開發有效策略來擴充業務。休閒、娛樂與博彩行業的全球性擴展，以及電力、種植、石油天然氣行業之發展，都是讓我們陸續成長的潛在良機。排除其它特殊情況，我們應該能在2007年取得更出色的表現。

Oil Palm Plantation

## PLANTATION

[www.asiatic.com.my](http://www.asiatic.com.my)

The Malaysian oil palm industry had a good year with export earnings rising to a record RM31.8 billion and crude palm oil ("CPO") production rising to 15.9 million tonnes. Although continued global demand boosted the industry's average CPO price to RM1,504 per tonne in 2006 (2005: RM1,390 per tonne), strong production and higher stock levels resulted in softer pricing for palm kernel ("PK") to an average of RM905 per tonne in 2006 (2005: RM1,018 per tonne).

In tandem with the industry's performance, the 2006 average selling price per tonne achieved by the Plantation Division for CPO was RM1,520 (2005: RM1,398) and for PK was RM897 (2005: RM1,017). The Division's fresh fruit bunch ("FFB") production recorded a new high of 1.13 million tonnes, due to an increase in mature harvesting area. The higher output was achieved on the back of the Division's increase in planted area, which totalled 59,534 hectares in 2006 (2005: 58,318 hectares).

Another 1,216 hectares were planted with oil palm in the Asiatic Jambongan Estate in 2006. Total mature area in the Asiatic Indah and Asiatic Permai Estates was about 5,000 hectares, contributing some 34,352 tonnes of FFB to the Division.

The Division's six oil mills in Malaysia with a total milling capacity of 255 tonnes per hour, achieved an average oil extraction rate of 20.52% in 2006 (2005: 20.98%). The slightly lower extraction rate was due to higher rainfall recorded, especially in February and December, which flooded some lowland areas of its estates.

The Serian Palm Oil Mill (the joint venture oil mill between the Division and the Sarawak Land Consolidated & Rehabilitation Authority) processed 225,436 tonnes of FFB in 2006, which was 6% lower than the previous year. During the year, the mill achieved average oil and kernel extraction rates of 22.01% and 4.71%, translating into an increase of 3% and 8% respectively, as compared to the previous year.

Nursery at Ketapang Land, Indonesia

Residential developments in Asiatic Indahpura, Johor

The Division commenced the development of its 98,300-hectare joint venture operations in Kalimantan, Indonesia. The joint venture operations will be developed over a 10-year period. The first site preparation for pre-nursery and main nursery comprising 30 hectares, began in early May and was completed in June 2006. The site preparation works for another 48 hectares began in October and was completed in late November. As at year-end, more than 40% of the seeds sown were transplanted from the pre-nursery to the main nursery to cater to the planting of Phase 1 in 2007.

#### PROPERTY

[www.asiatic.com.my](http://www.asiatic.com.my)

The Property Division recorded an 8% increase in revenue to achieve a total of RM107.9 million in 2006 (2005: RM100.2 million), despite a challenging property market environment arising from higher oil prices, interest rates and utility tariffs. The Division's profit before tax in 2006 was RM25.7 million (2005: RM23.2 million).

The Division is led by Asiatic Land Development Sdn Bhd, which develops the Asiatic brand of properties.

**Asiatic Indahpura**, the Division's flagship project of mixed residential and commercial developments in Johor was the key contributor to the Division, with sales of RM64.9 million in 2006. The sales were mainly derived from its newly launched

double-storey and single-storey terrace houses. The Division's one-stop automotive centre, the Asiatic Indahpura Car City continued to grow with the establishment of 6 new units of car service centres, in addition to the existing 5 car showrooms and 4 service centres.

**Asiatic Cheng Perdana** in Melaka continued to generate good revenue of RM10.2 million, despite being at the tail end of its development. The revenue is mainly contributed from the progress billings of its single-storey terrace houses under construction.

The development activities in **Asiatic Permaipura**, Kedah were relatively subdued due to market conditions. On the other hand, the Permaipura Golf and Country Club, one of the popular golf clubs in Kedah, performed reasonably well despite strong competition from surrounding golf clubs. Asiatic Permaipura continued its marketing efforts by introducing innovative tournament packages to attract more local and foreign golfers to the club.

The **Kijal Beach Resort Apartments**, which are strategically located beside Awana Kijal Golf, Beach & Spa Resort in the east coast of Terengganu, continued to enjoy good tenancy and registered an average rental occupancy rate of 68% in 2006. The 89 units of apartments offer panoramic views of the South China Sea and overlook Awana Kijal's 18-hole championship golf course.

## POWER

[www.gentingsanyen.com](http://www.gentingsanyen.com)

Genting Power Holdings Limited

The Power Division is spearheaded by 100%-owned Genting Power Holdings Limited.

The division's crown jewel is the 720MW Kuala Langat power plant, strategically located at the Genting Sanyen Industrial Complex, a few minutes' drive from Kuala Lumpur International Airport. The plant is operated by the Group's subsidiary Genting Sanyen Power Sdn Bhd, which is an Independent Power Producer in Malaysia. The gas-fired combined cycle power plant, in its eleventh year of full commercial operations in 2006, remained highly ranked in the merit order despatch schedule of Tenaga Nasional Berhad, Malaysia's national utility group.

A significant milestone was reached on 26 May 2006, when the Division acquired the remaining 73.8% interest in China-based Meizhou Wan power plant and a 100% interest in its project management company for US\$155.3 million. This has enabled the Group to operate its first 100%-owned power plant and has increased the Group's net attributable capacity by 59% to a total of 1,450MW in 2006.

During the year, the Division's revenue surpassed the RM1 billion mark to RM1,325.8 million (2005: RM701.1 million), while profit before tax was RM458.6 million (2005: RM266.8 million). The significantly higher performance was mainly due to contributions from the four power plants in China, acquired in December 2005 and May 2006.

The 724MW Meizhou Wan coal-fired power plant in Fujian Province spearheads the power generation operations of the Division in China. The Division has interests in three other power plants in Jiangsu Province, comprising 109MW Suzhou gas-fired combined cycle power plant (60%-owned), 76MW Nanjing diesel-fired open cycle power plant (80%-owned) and 42MW Wuxi gas-fired open cycle power plant (60%-owned).

In India, the Division's two power plants, namely Lanco Kondapalli and Aban Power continued to perform well in 2006. The Division has a 30% interest in 368MW Lanco Kondapalli, a gas-fired combined cycle power plant in Andhra Pradesh, that is operated and maintained by Genting Lanco Power Private Ltd, a 74%-owned subsidiary of the Group.

The Division has a 36.26% interest in Aban Power, a 113MW gas-fired combined cycle plant in the Tanjore District of Tamil Nadu, which began commercial operations in August 2005. All electricity generated by the Aban Power plant is contracted to the Tamil Nadu Electricity Board, the state electricity distributor, under a power purchase agreement.

The Complex accommodates a paper mill (with two paper machines), a 720MW power plant, a Central box plant, a waste-to-energy plant, raw water and waste water treatment plants and the Division's operations head office.

The Division's paper mill maintained a high average production efficiency of 97% and produced over 260,000 tonnes of industrial brown paper in 2006.

The Division operates two of the most modern box plants in Malaysia, located in Prai, Penang and in the Complex.

Three new printers were installed at the Northern Box Plant in Prai, increasing its converting capacity to 4,000 tonnes per month. The box plants improved on its productivity

and provided value-added services to its customers, such as offering innovative designs and cost-effective proposals in their supply chain of packaging boxes. (On 16 March 2007, the Group announced the divestment of its paper and packaging business for a total cash consideration of RM745 million to CVC Asia Pacific Ltd.)

**Genting Bio-Oil's** first pilot plant in Ayer Item, Johor was commissioned in 2006. Genting Bio-Oil is made from waste generated from oil palm plantations, such as empty fruit bunches. It can be used in a wide variety of applications, including direct co-combustion at power plants and boilers for heat and electricity generation. Combustion trials were undertaken in Japan and Europe during the year.

The Division continued to develop **Rite Wood**, an innovative wood plastic composite product that can be used as an alternative building material. Marketing efforts were implemented to promote the environmental-friendly product to overseas markets, such as South Korea and Australia.

## OIL AND GAS

Genting Oil & Gas Limited

The Oil & Gas Division, spearheaded by 95%-owned Genting Oil & Gas Limited ("GOGL"), is primarily involved in the exploration and production of oil and gas. It has operations and offices in China, Indonesia and Morocco. Genting Oil & Gas Sdn Bhd provides management and technical services to the Division.

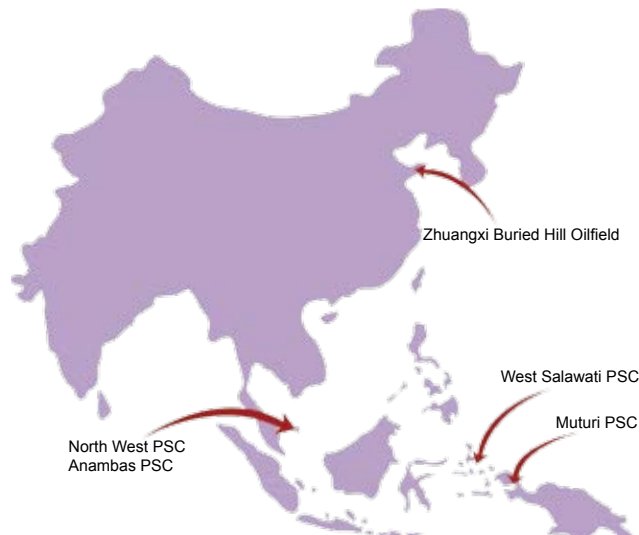

It was a productive year for the Division. Three exploration wells were successfully drilled in Indonesia and a new petroleum contract was acquired in offshore Morocco. The Division's revenue rose by 20% to reach RM141.3 million in 2006 (2005: RM117.9 million) and profit before tax in 2006 was RM51.0 million (2005: RM50.9 million).

In **China**, GOGL's subsidiary Genting Oil & Gas (China) Limited ("GOGC") continued with its operations at the onshore Zhuangxi Buried Hill Oilfield in Shandong Province. During the year, in-fill drilling and work-overs succeeded in maintaining the oil production and a new 3D seismic survey was processed and interpreted. In 2006, the oilfield produced 209,250 tonnes of oil, which was equivalent to 1.44 million barrels (2005: 192,896 tonnes). GOGC was entitled to 100,357 tonnes (equivalent to 0.688 million barrels) of this oil (2005: 105,357 tonnes or 1.32 million barrels). In 2006 the oil was sold to Sinopec at an average of US\$55.50 per barrel (2005: US\$47.06 per barrel).

In **Indonesia**, the Division has interests in three Production Sharing Contracts ("PSCs") with BPMIGAS (Indonesia's oil and gas supervisory body), namely the 100%-owned Anambas PSC, 100%-owned Northwest Natuna PSC and 49.99%-owned West Salawati PSC. The Anambas PSC is operated by Sanyen Oil & Gas Pte Ltd, the Northwest Natuna PSC is operated by Genting Oil Natuna Pte Ltd, while the West Salawati interest is held by Genting Oil Salawati Pte Ltd. Each PSC has a three-year work commitment comprising 3D seismic and one exploration well.

During the year under review, an exploration well on the Anambas PSC called 'Anambas-1X' was drilled and tested during July and August. Several hydrocarbon-bearing sandstones were intersected by this well. An upper sand was tested at 15.6 mscf/d (million standard cubic feet of gas per day) and a lower sand was tested at 488 barrels of condensate per day. Further studies are underway and appraisal drilling is being considered to determine the size of the gas and condensate reserves as well as their commercial viability.

On the Northwest Natuna PSC, two exploration wells were drilled on the Ande Ande Lumut ("AAL") Oil Discovery from September to November. Both wells (AAL-2X-R and AAL-3X)

intersected a number of oil-bearing sandstones, the most important of which was a 36 metre to 44 metre thick 'K' Sand. This K Sand was tested in AAL-3X at a restricted flow rate of 1,210 barrels of oil per day ("bopd") and a deeper sand was tested at a restricted flow rate of 525 bopd. The results of these wells were very encouraging. A feasibility study is underway to determine the significance of this AAL Oil Discovery and its development potential.

The West Salawati PSC is operated by PearlOil (Salawati) Limited and encompasses onshore areas of Salawati Island and surrounding offshore areas of the Seram Sea and Sele Straits. During the year, a 3D seismic survey of 134 square kilometres was acquired and processed over the Cilipgo area of Salawati Island.

The Division continued to monitor its future deferred consideration rights (under a 2001 contract with BP Global Investments Ltd) to long-term cash flows from the Muturi PSC in West Papua. This 'deferred consideration' is expected to begin at the end of 2008 when the Tangguh Liquefied Natural Gas ("LNG") Plant begins producing and selling gas from the Muturi PSC. At the end of 2006, over 60% of the first two Tangguh LNG Trains and related facilities had been completed and international financing of US\$2.6 billion had been raised by the Tangguh partners. This 'deferred consideration' has not been recognised in the financial statements, as the amount cannot be quantified at this time.

In **Morocco**, Genting Oil Morocco Limited signed a Petroleum Agreement with ONHYM (the Moroccan state oil company) on 18 May 2006 to operate and own 75% of the Ras Juby Offshore area, which contains the Cap Juby Heavy Oil Discovery. This agreement, effective 11 July 2006, covers an area of 2,000 square kilometres, located offshore Tarfaya on the Atlantic coast of Morocco. The Ras Juby Offshore Agreement has an initial two-year commitment of 3D seismic data, which is to be acquired, processed and interpreted. In December 2006, a 3D seismic survey covering 510 square kilometres was acquired across the Cap Juby Heavy Oil Discovery and an office was established in the Moroccan capital of Rabat.

The independent non-executive Directors also participate in the Audit, Remuneration and Nomination Committees as members of these Committees.

The Board is mindful of the dual roles of Chairman and Chief Executive held by Tan Sri Lim Kok Thay but is of the view that there are sufficient experienced and independent – minded Directors on the Board to provide the assurance that there is sufficient check and balance. A statement by the Board of its responsibilities for preparing the financial statements is set out on page 54 of this Annual Report.

### **(ii) Internal Control**

The Board is responsible for the Group's system of internal control and risk management and for reviewing its adequacy and integrity. While acknowledging their responsibility for the system of internal control, the Directors are aware that such a system is designed to manage rather than eliminate risks and therefore cannot provide an absolute assurance against material misstatement or loss.

To assist the Board in maintaining a sound system of internal control for the purposes of safeguarding shareholders' investment and the Group's assets, the Group has in place, an adequately resourced internal audit department. The activities of this department which reports regularly to the Audit Committee provides the Board with much of the assurance it requires regarding the adequacy and integrity of the system of internal control. As proper risk management is a significant component of a sound system of internal control, the Group has also put in place a risk management process to help the Board in identifying, evaluating and managing risks.

### **(iii) Relationship with Auditors**

The Company through the Audit Committee, has an appropriate and transparent relationship with the external auditors. # Statement On Internal Control

## The Board's Responsibilities

In relation to internal control, pursuant to the requirements under the Malaysian Code of Corporate Governance for companies listed on the Bursa Malaysia Securities Berhad ("Bursa Securities"), the Board of Directors ("the Board") acknowledges their responsibility under the Bursa Malaysia Listing Requirements to:-

- Identify principal risks and ensure implementation of appropriate control measures to manage the risks.
- Review the adequacy and integrity of the internal control system and management information systems and systems for compliance with applicable laws, regulations, rules, directives and guidelines.

It should be noted that an internal control system is designed to manage risks rather than eliminate them, and can provide only reasonable but not absolute assurance against any material misstatement or loss.

The Board confirms that there is an ongoing risk management process established to identify, evaluate, and manage significant risks to effectively mitigate the risks that may impede the achievement of Genting Group of companies' ("the Group") business and corporate objectives. The Board reviews the process on a regular basis to ensure proper management of risks and measures are taken to mitigate any weaknesses in the control environment.

## The Risk Management Process

The Group employs the Control Self-Assessment ("CSA") to formalise the risk management process. With the CSA, departments/business areas of the Group are required to identify and evaluate controls within key functions/activities of their business processes. The risks to the Group's strategic objectives are assessed at the Group and company level.

The Risk and Business Continuity Management Committees ("RBCMCs") established at Genting Berhad ("GB") and its principal subsidiaries are responsible for ensuring the effectiveness of the risk management process and implementation of risk management policies in their respective companies. The RBCMC of GB comprises senior management of the Group and is chaired by the Executive Vice President – Finance of GB, whereas the RBCMCs of the principal subsidiaries comprise their respective senior management headed by their respective Chief Financial Officers/Heads of Finance.

The key aspects of the risk management process are:-

- Business/Operations Heads undertake to update their risk profiles on a six monthly basis from the previous update and issue a letter of assurance to confirm that they have reviewed the risk profiles, risk reports and related business processes and are also monitoring the implementation of action plans.
- The risk profiles, control procedures and status of the action plans are reviewed on a regular basis by the Group Risk Manager with the Business/ Operations Heads.
- Management of the respective companies is provided with reports to enable them to review, discuss and monitor the risk profiles and implementation of action plans.
- On a quarterly basis the RBCMC of the respective companies meet to review the progress of the implementation of action plans of their respective companies and a consolidated risk management report summarizing the significant risks and/or status of action plans of the respective companies are presented quarterly to the Audit Committee for review, deliberation and recommendation for endorsement by the Board of Directors.

## The Internal Control Processes

The other key aspects of the internal control process are:-

- The Board and the Audit Committee meet every quarter to discuss matters raised by Management and Internal Audit on business and operational matters including potential risks and control issues.
- The Board has delegated the responsibilities to various committees established by the Board and Management of the holding company and subsidiaries to implement and monitor the Board's policies on controls.
- Delegation of authority including authorization limits at various levels of Management and those requiring the Board's approval are documented and designed to ensure accountability and responsibility.
- Internal procedures and policies are documented in manuals, which are reviewed and revised periodically to meet changing business, operational and statutory reporting needs.
- Performance and cash flow reports are provided to Management and the Group Executive Committee to review and monitor the financial performance and cash flow position.
- Business/operating units present their annual budget, which includes the financial and operating targets, capital expenditure proposals and performance indicators for approval by the Group Executive Committee and the Board.
- A half yearly review of the annual budget is undertaken by Management to identify and where appropriate, to address significant variances from the budget.

Some weaknesses in internal control were identified for the year under review but these are not deemed significant and hence have not been included in this statement, as these weaknesses have not materially impacted the business or operations of the Group. Nevertheless, measures have been or are being taken to address these weaknesses.

Business continuity management is regarded an integral part of the Group's risk management process. In this regard to minimize potential business disruptions either due to failure of critical IT systems and/or operational processes, some of the subsidiaries and key operating units have commenced implementation of business continuity plans while others are in the process of implementing them.

The Board in issuing this statement has taken into consideration the state of internal control of the associated company, Serian Palm Oil Mill Sdn Bhd and the representations made by the Group's principal associated companies, Star Cruises Limited and Lanco Kondapalli Power Private Limited in respect of their state of internal control.

For the year under review, Landmarks Berhad ("LB") is accounted for as an associated company in the financial statements of the Group following the Group's acquisition of a 25.1% equity interest in LB. However, as the Group has no representation on the board or management of LB, and in view that LB is also listed on Bursa Securities, the Board has considered the disclosures, the publicly available information and the statement on internal control as contained in LB's annual report in considering the state of LB's internal control in the issuance of this statement.

## The Internal Audit Function

The Group Internal Audit Division ("Group Internal Audit") is responsible for undertaking regular and systematic review of the internal controls to provide the Audit Committee and the Board with sufficient assurance that the systems of internal control are effective in addressing the risks identified.

On a quarterly basis, Group Internal Audit submits audit reports and plan status for review and approval by the Audit Committee. Included in the reports are recommended corrective measures on risks identified, if any, for implementation by Management.

- (iii) which have arisen which render adherence to the existing methods of valuation of assets or liabilities in the financial statements of the Group and of the Company misleading or inappropriate; and

# Notes to the Financial Statements

31 December 2006

**Amounts in RM million unless otherwise stated**

## 1. PRINCIPAL ACTIVITIES

The Company is principally an investment holding and management company.

The principal activities of the subsidiaries include leisure and hospitality, gaming and entertainment businesses, plantation, the generation and supply of electric power, property development and management, tours and travel related services, investments, manufacturing and trading in paper and paper related products and oil and gas exploration, development and production activities.

The principal activities of the associates include cruise and cruise related operations and the generation and supply of electric power.

Details of the principal activities of the subsidiaries and associates are set out in Note 41 to the financial statements.

There have been no significant changes in the nature of the activities of the Group and of the Company during the financial year.

## 2. BASIS OF PREPARATION

The financial statements of the Group and the Company have been prepared in accordance with and comply with Financial Reporting Standards, the Malaysian Accounting Standards Board ("MASB") Approved Accounting Standards for Entities Other Than Private Entities in Malaysia and the provisions of the Companies Act, 1965. The bases of measurement applied to assets and liabilities include cost, amortised cost, lower of cost and net realisable value, revalued amount and fair value.

The preparation of financial statements in conformity with the Financial Reporting Standards and the provisions of the Companies Act, 1965 requires the Directors to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported financial year. It also requires Directors to exercise their judgement in the process of applying the Company's accounting policies. Although these judgements and estimates are based on Directors' best knowledge of current events and actions, actual results could differ from those estimates.

### Judgements And Estimations

In the process of applying the Group's accounting policies, management makes judgements and estimates that can significantly affect the amount recognised in the financial statements. These judgements and estimates include:

#### i) Provision for taxation

The Group is subject to income taxes in numerous jurisdictions in which the Group operates. Significant judgement is required in determining the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for tax based on estimates of assessment of the tax liability due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

#### ii) Estimation of useful lives and residual value of property, plant and equipment

The Group periodically reviews the useful lives and residual value of property, plant and equipment in accordance with the accounting policy stated in Note 3 of the financial statements. In relation to the power plant, the management takes into consideration changes in technology and competition within the industry, and any change in the terms and conditions of the Power Purchase Agreement ("PPA") in light of announcements made by Ministry of Energy, Water and Communication pertaining to possible PPA renegotiation.

**iii) Provisional fair values of assets and liabilities**

Arising from the acquisition of Stanley Leisure plc (refer to Note (a) to the cash flow statements for details of the acquisition), the amount of assets (including intangible assets) and liabilities arising from the acquisition of Stanley Leisure as at 31 December 2006 is currently determined based on provisional fair values assigned to the identifiable assets and liabilities as at acquisition date and hence has yet to be allocated to the Group's cash generating units. Any adjustments to these provisional values upon finalisation of the detailed fair value exercise will be recognised within 12 months of the acquisition date. The adjustments will be calculated as if the fair values had been recognised on acquisition date. Goodwill will also be adjusted to the amount that would have been recognised if the adjusted fair values had been used at acquisition date. As a result, comparative information may be restated.

**3. SIGNIFICANT ACCOUNTING POLICIES**

**Adoption of new Financial Reporting Standards**

Accounting policies adopted by the Group and the Company have been applied consistently in dealing with items that are considered material in relation to the financial statements, unless otherwise stated. The following new and revised Financial Reporting Standards ("FRS") that are relevant to the Group have been adopted during the financial year:

FRS 2	Share-based Payment
FRS 3	Business Combinations

**3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)****Changes In Accounting Policies**

The principal effects of the changes in accounting policies resulting from the adoption of the above FRSs by the Group is as follows:

**i) FRS 2: Share-based Payment**

An entity is required to recognise share-based payment transactions in its financial statements, including transactions with employees or other parties to be settled in cash, other assets or equity instruments of the entity.

The Company together with its listed subsidiaries, namely Resorts World Bhd ("RWB"), a 57.6% owned subsidiary of the Company, Asiatic Development Berhad ("ADB"), a 55.2% owned subsidiary of the Company and Genting International P.L.C. ("GIPLC"), a 58.5% owned subsidiary of the Group, each operates an equity-settled, share-based compensation plan, where share options are issued by the respective companies to their respective eligible executives and executive directors.

Prior to 1 January 2006, no compensation expense was recognised in the income statement for share options granted. Effective from 1 January 2006, with the adoption of FRS 2, the fair value of employee services rendered in exchange for the grant of the share options is recognised as an expense over the vesting period. The fair value is measured by the use of an actuarial trinomial model. The total amount to be expensed in the income statement over the vesting period is determined by reference to the fair value of each share option granted at the grant date and the estimated number of share options vested by vesting date, with a corresponding increase in equity. Before the end of the vesting period, at each balance sheet date, the respective companies will revise its estimates of the number of share options that are expected to be vested at the vesting date and recognise the impact of this revision in the income statement with a corresponding adjustment to equity. After the vesting date, no adjustment to the income statement is made. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium account when the share options are exercised.

The Group has adopted the transitional provision in FRS 2 to include only share options that were granted after 31 December 2004 and not yet vested on 1 January 2006. The application is retrospective and accordingly, the comparative amounts as at 31 December 2005 are restated and the opening balance of retained earnings as at 1 January 2006, where material, has been adjusted. The financial impact to the Group arising from this change in accounting policy is as follows:

	<b>As at 1 Jan 2006 RM'000</b>	<b>As at 31 Dec 2006 RM'000</b>
Decrease in retained earnings	(8,854)	(10,963)
Decrease in minority interest	(6,269)	(7,390)
Increase in option reserve (included in minority interest)	15,123	18,353
	<b>Financial year ended 31 December 2005 RM'000</b>	<b>Financial year ended 31 December 2006 RM'000</b>
Decrease in profit for the financial year (included in Administration expenses)	-	(3,953)

**ii) FRS 101: Presentation of Financial Statements**

The adoption of the revised FRS 101 has affected the presentation of minority interests, share of results in associates, biological assets and other disclosures. In the consolidated balance sheet, minority interests are now presented within total equity. In the consolidated income statement, minority interests are presented as an allocation of the total profit or loss for the period. A similar requirement is also applicable to the statement of changes in equity where it requires disclosure, on the face of the statement of changes in equity, total recognised income and expenses for the period, showing separately the amounts attributable to equity holders of the Company and to minority interest.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### ii) FRS 101: Presentation of Financial Statements (Cont'd)

Share of results in associates is now disclosed net of tax and minority interests in the consolidated income statement.

Planting and development expenditure which was previously classified under property, plant and equipment is now disclosed separately in the consolidated balance sheet as biological assets. The Group maintains its existing accounting policy on biological assets and shall comply with the provisions of MASB Exposure Draft 50: Agriculture, the equivalent of International Accounting Standard 41, once it becomes effective for application in Malaysia. The current financial year's presentation of the Group's financial statements is based on the revised requirements of FRS 101, with comparatives restated to conform with the current period's presentation. The effect to the Group arising from this change in accounting policy is as follows:

	As at 1 Jan 2006 RM'000	As at 31 Dec 2006 RM'000
Increase in biological assets	429,712	445,248
Decrease in property, plant and equipment	(429,712)	(445,248)

#### iii) FRS 121: The Effect of Changes in Foreign Exchange Rates

The financial statement of each entity in the Group is measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional and presentation currency.

On consolidation, the results and financial position of all the group entities which have a functional currency different from that of the parent company's functional currency are translated into the parent company's functional and presentation currency as follows:

- Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- Income and expenses for each income statement are translated at average exchange rates; and
- All resulting exchange differences are recognised as a separate component of equity.

As of 1 January 2006, goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. In accordance with the transitional provisions of FRS 121, this change is applied prospectively for business combinations on/after 1 January 2006. Prior to 1 January 2006, goodwill and fair value adjustments arising on acquisition of a foreign entity are deemed to be assets and liabilities of the parent company and were translated using the exchange rate at the date of acquisition.

The financial impact to the Group arising from this change in accounting policy is as follows:

	As at 1 Jan 2006 RM'000	As at 31 Dec 2006 RM'000
Increase in associates	62,402	78,661
Increase in reserves	36,032	45,308
Increase in minority interests	26,370	33,353

There is no impact to the income statements for the current and previous financial years.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### iv) FRS 140: Investment Property

The Group adopted the cost model to measure all its investment properties. Under the cost model, investment property is measured at depreciated cost less any accumulated impairment losses.

Investment property previously classified under property, plant and equipment is now disclosed as a separate line item on the face of the consolidated balance sheet within non-current assets. In line with the revised requirements of FRS 101, the comparative is restated to conform with the current period's presentation. The effect to the Group arising from this change in accounting policy is as follows:

	As at 1 Jan 2006 RM'000	As at 31 Dec 2006 RM'000
Increase in investment properties	28,884	<b>30,106</b>
Decrease in property, plant and equipment	(28,884)	<b>(30,106)</b>

#### Prior Year Adjustments

The changes in accounting policies as described above were applied retrospectively and have the following impact on the retained earnings and reserve on exchange differences of the Group:

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Basis of Consolidation

Investments in subsidiaries are eliminated on consolidation while investments in jointly controlled entities and associates are accounted for by the equity method of accounting.

##### a) Subsidiaries

The consolidated financial statements include the audited financial statements of the Company and all its subsidiaries made up to the end of the financial year. Subsidiaries are those companies in which the Group has power to exercise control over the financial and operating policies so as to obtain benefits from their activities.

Subsidiaries are consolidated from the date on which effective control is transferred to the Group and are no longer consolidated from the date that control ceases. Subsidiaries are consolidated using the purchase method of accounting whereby the results of subsidiaries acquired or disposed of during the financial year are included from the date of acquisition up to the date when control ceases. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the Group's share of the fair value of the identifiable net assets of the subsidiary acquired at the date of acquisition is reflected as goodwill. See accounting policy note on treatment of goodwill.

Negative goodwill represents the excess of the fair value of the Group's share of the net assets acquired over the cost of acquisition and prior to 1 January 2006, the negative goodwill is credited to retained earnings in the year of acquisition. Negative goodwill arising from new acquisition on or after 1 January 2006, is recognised directly in the income statement.

All material intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless cost cannot be recovered. Where necessary, accounting policies for subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

The gain or loss on disposal of a subsidiary is the difference between net disposal proceeds and the Group's share of its net assets together with any balance of goodwill on acquisition and exchange differences which were not previously recognised in the consolidated income statement.

Minority interests is measured at the minorities' share of the fair value of the identifiable assets and liabilities of the acquiree as at the date of acquisition and the minorities' share of movements in the acquiree's net assets since that date. Separate disclosure is made of minority interests.

##### b) Transactions with minority interests

The Group applies a policy of treating transactions with minority interests as transactions with parties external to the Group. Disposals to minority interests result in gains and losses for the Group that are recorded in the income statement. Purchases from minority interests result in goodwill, being the difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary.

##### c) Jointly Controlled Entities

Jointly controlled entities are corporations, partnerships or other entities over which there is contractually agreed sharing of control by the Group with one or more parties.

The Group's interests in jointly controlled entities are accounted for in the consolidated financial statements by the equity method of accounting. Equity accounting involves recognising the Group's share of the post acquisition results of jointly controlled entities in the income statement and its share of post acquisition movements within reserves in reserves. The Group's interest in jointly controlled entities is stated at cost net of goodwill written off, for acquisitions prior to 1 January 2004, plus adjustments to reflect changes in the Group's share of the net assets of the jointly controlled entities. The cumulative post acquisition movements are adjusted against the cost of the investment and includes goodwill on acquisition less impairment losses, where applicable. See accounting policy note on impairment of assets.

The Group recognises the portion of gains or losses on the sale of assets by the Group to the joint venture that is attributable to the other parties in the ventures. The Group does not recognise its share of profits or losses from the joint venture until it resells the assets to an independent party. However, if a loss on the transaction provides evidence of a reduction in the net realisable value of current assets or an impairment loss, the loss is recognised immediately.

Where necessary, in applying the equity method, adjustments have been made to the financial statements of jointly controlled entities to ensure consistency of accounting policies with those of the Group.

**3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)****Basis of Consolidation (Cont'd)****d) Associates**

Associates are companies in which the Group exercises significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the associates but not control over those policies.

Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. Equity accounting involves recognising in the income statement the Group's share of the associates' results for the financial year. The Group's interest in associates is stated at cost net of goodwill written off, for acquisitions prior to 1 January 2004, plus adjustments to reflect changes in the Group's share of the net assets of the associates. Equity accounting is discontinued when the carrying amount of the investment in an associate reaches zero, unless the Group has incurred obligation or made payment on behalf of the associate.

The Group's investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the assets transferred.

Where necessary, in applying the equity method, adjustments have been made to the financial statements of associates to ensure consistency of accounting policies with those of the Group.

**Property, Plant and Equipment**

Property, plant and equipment are tangible items that:

- i) are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and
- ii) are expected to be used during more than one period.

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses except for certain properties which were revalued before 1998. In accordance with the transitional provision allowed by MASB upon first adoption of IAS 16, Property, Plant and Equipment, the valuation of these assets have not been updated, and they continue to be stated at their existing carrying amounts less accumulated depreciation, amortisation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the items.

The depreciable amount of an item of property, plant and equipment is determined as the difference between the cost less its residual value. The residual value is the estimated amount that the Group expects to obtain from disposal of the asset, after deducting the estimated cost of disposal, if the asset was already of the age and in the condition expected at the end of its useful life.

Freehold land and capital work-in-progress are not depreciated. Leasehold properties with lease period of 99 years or less are amortised equally over their respective periods of lease. The Group depreciates other assets based on their consumption pattern and is applied separately to each significant component.

Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives, as follows:

	Years
Buildings and improvements	2 - 50
Plant, equipment and vehicles	2 - 20

The assets' residual values and useful lives are reviewed annually and revised if appropriate.

Where an indication of impairments exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Gains and losses on disposals are determined by comparing proceeds with the carrying amounts and are included in the income statement. On disposal of revalued assets, amounts in the revaluation reserve relating to those assets are transferred to retained earnings.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Investment Properties

Investment properties consist of investments in land and buildings that are held for long-term rental yield and/or for capital appreciation and are not occupied by the Group.

Investment in freehold land is stated at cost. Other investment properties are stated at cost less accumulated depreciation and impairment losses. Depreciation for other investment properties is calculated using the straight-line method to allocate their cost over their estimated economic lives as follows:

	Years
Buildings and improvements	5 - 50

Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Gains and losses on disposal are determined by comparing net disposal proceeds with carrying amount and are included in the income statement.

#### Biological assets

Biological assets comprise cost of planting and development on oil palms and other plantation crops, which was previously classified under property, plant and equipment, and is now reclassified as biological assets in accordance with FRS 101.

Cost of new planting and development of plantation crops are capitalised from the stage of land clearing up to the stage of maturity. The cost of new planting capitalised is not amortised. However, where the cost of new planting is incurred on leasehold land which has unexpired period shorter than the crop's economic life, the cost is amortised over the remaining period of the lease on a straight line basis.

Replanting expenditure is charged to the income statement in the financial year in which the expenditure is incurred.

#### Property Development Activities

##### a) Land Held for Property Development

Land held for property development consist of land on which no significant development work has been undertaken or where development activities are not expected to be completed within the normal operating cycle. Such land is classified as non-current asset and is stated at cost less accumulated impairment losses, if any.

Cost comprises cost of land and all related cost incurred on activities necessary to prepare the land for its intended use. Where the Group had previously recorded the land at revalued amount, it continues to retain this amount as its surrogate cost as allowed by FRS201<sub>2004</sub> (previously MASB 32), Property Development Activities. Where an indication of impairment exists, the carrying amount of the asset is assessed and written down immediately to its recoverable amount. See accounting policy note on impairment of assets.

Land held for property development is transferred to property development costs and included under current assets when development activities have commenced and where the development activities can be completed within the normal operating cycle.

##### b) Property Development Costs

Property development costs comprise costs associated with the acquisition of land and all costs directly attributable to development activities or costs that can be allocated on a reasonable basis to these activities.

When the outcome of the development activity can be estimated reliably, property development revenue and expenses are recognised by using the percentage of completion method in respect of sales where agreements have been finalised. Under this method, profits are recognised as the property development activity progresses. The stage of completion is determined based on proportion of property development costs incurred for work performed up to the balance sheet date over the estimated total property development cost to completion.

When the outcome of a development activity cannot be reliably estimated, property development revenue is recognised only to the extent of property development costs incurred that is probable of recovery, and property development costs on the development units sold are recognised as an expense when incurred. Foreseeable losses, if any, arising when it is probable that total property development costs (including expected defect liability expenditure) will exceed total property development revenue, are recognised immediately in the income statement.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Property Development Activities (Cont'd)

b) Property Development Costs (Cont'd)

Property development costs not recognised as an expense is recognised as an asset and is stated at the lower of cost and net realisable value. Upon completion of development, the unsold completed development properties are transferred to inventories.

Where revenue recognised in the income statement exceed billings to purchasers, the balance is shown as accrued billings under trade and other receivables (within current assets). Where billings to purchasers exceed revenue recognised in the income statement, the balance is shown as progress billings under trade and other payables (within current liabilities).

#### Investments

Investments in non-current investments other than investments in subsidiaries, jointly controlled entities and associates are stated at cost and an allowance for diminution in value is made where, in the opinion of the Directors, there is a decline other than temporary in the value of such investments. Such a decline is recognised as an expense in the period in which it is identified.

Short term quoted investments are stated at the lower of cost and market value, determined on a portfolio basis by comparing aggregate cost against aggregate market value. Market value is calculated by reference to quoted selling prices at the close of business on the balance sheet date. Money market instruments are stated at the lower of cost and net realisable value.

On disposal of an investment, the difference between net disposal proceeds and its carrying amount is charged/credited to the income statement.

#### Intangible Assets

a) Goodwill

Goodwill represents the excess of the cost of acquisition over the Group's share of the fair value of the identifiable net assets of the subsidiaries at the date of acquisition. Goodwill is stated at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed.

Goodwill is allocated to cash-generating units for the purpose of annual impairment testing. The allocation is made to those cash generating units or groups of cash generating units that are expected to benefit from the business combination in which the goodwill arose.

b) Exploration Cost

Exploration cost is accounted for in accordance with the full cost method. Under this method, all costs relating to the exploration activities are capitalised when incurred. Where it is determined that the exploration activities will not yield significant oil and gas discoveries, the related exploration cost will be charged to the income statement. Exploration cost is stated net of impairment loss.

c) Royalty

Royalty expenditure is stated at cost less accumulated amortisation. Amortisation is calculated using the straight line method over the estimated useful lives, not exceeding a period of 20 years.

d) Trademark

Trademark is stated at cost less any accumulated impairment losses. Trademark has an indefinite useful life as it is maintained through continuous marketing and upgrading. See accounting policy on impairment of non-financial assets.

e) Rights

Acquired licenses of independent power plant are stated at cost less accumulated amortisation. Amortisation is calculated using the straight line method over the licensing agreement periods.

### **3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**

#### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost includes, where relevant, appropriate proportions of overheads and is determined on a weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less costs of completion and selling expenses. The cost of unsold properties comprises cost associated with the acquisition of land, direct costs and an appropriate proportion of allocated costs attributable to property development activities.

#### **Receivables**

Receivables are carried at estimated realisable value. In estimating realisable value, an allowance is made for doubtful receivables based on a review of all outstanding amounts at the financial year end. Bad debts are written off to the income statement during the financial year in which they are identified.

#### **Cash and Cash Equivalents**

Cash and cash equivalents include cash and bank balances (net of bank overdrafts), deposits and other short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. Bank overdrafts are included within short term borrowings in the current liabilities and money market instruments are included within short term investments in current assets in the balance sheet.

#### **Share Capital**

Ordinary shares are classified as equity when there is no contractual obligation to deliver cash or other financial assets to another entity or to exchange financial assets or liabilities with another entity that are potentially unfavourable to the issuer.

Incremental costs directly attributable to the issue of new shares, options or for the acquisition of a business are shown in equity as a deduction, net of tax, from the proceeds.

The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

#### **Borrowings**

Borrowings are recognised initially based on proceeds received. Subsequently, borrowings are stated at amortised cost using the effective interest method; any difference between the amount recorded as borrowings and the associated redemption value is recognised in the income statement over the period of the borrowings.

Costs incurred on borrowings to finance qualifying assets are capitalised until the assets are ready for their intended use after which such expenses are charged to the income statement. All other borrowing costs are charged to the income statement.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

#### **Impairment of Non-Financial Assets**

The carrying amounts of assets, with the exception of inventories, assets arising from construction contracts, deferred tax assets and financial assets (excluding investments in subsidiaries, jointly controlled entities and associates), are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If such indication exists, an impairment review is performed to assess whether the carrying amount of the asset is fully recoverable.

Irrespective of whether there is any indication of impairment, the Group also:

- a) tests intangible assets with indefinite useful life for impairment annually by comparing its carrying amount with its recoverable amount.
- b) tests goodwill acquired in a business combination for impairment annually.

Impairment loss is recognised when the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and its value in use, which is measured by reference to discounted future cash flows. Recoverable amounts are estimated for individual assets, or if it is not possible, for the cash generating unit.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Impairment of Non-Financial Assets (Cont'd)

An impairment loss is charged to the income statement, unless the asset is carried at revalued amount, in which case the impairment loss is used to reduce the revaluation surplus.

Assets other than goodwill that have suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

#### Contingent Liabilities and Contingent Assets

The Group does not recognise a contingent liability but discloses its existence in the financial statements, except in a business combination. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. When a change in the probability of an outflow of economic resources occurs, so that the outflow is probable, it will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by uncertain future events beyond the control of the Group. The Group does not recognise contingent assets but discloses their existence where inflows of economic benefits are probable, but not virtually certain. When inflow of economic resources is virtually certain, the asset is recognised.

In the acquisition of subsidiaries by the Group under a business combination, the contingent liabilities assumed are measured initially at their fair value at the acquisition date, irrespective of the extent of any minority interest.

The Group recognises separately the contingent liabilities of the acquirees as part of allocating the cost of a business combination where the fair values can be measured reliably. Where the fair values cannot be measured reliably, the resulting effect will be reflected in the goodwill arising from the acquisitions.

Subsequent to the initial recognition, the Group measures the contingent liabilities that are recognised separately at the date of acquisition at the higher of the amount that would be recognised in accordance with the provisions of FRS 137<sup>2004</sup> and the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with FRS 118.

#### Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate can be made of the amount of the obligation.

#### Income Taxes

- a) **Current Taxation**  
Current taxation is determined according to the tax laws of each jurisdiction in which the Group operates and includes all taxes based upon the taxable income and is measured using the tax rates which are applicable at the balance sheet date.
- b) **Deferred Taxation**  
Deferred tax liabilities and/or assets are recognised, using liability method, on temporary differences between the carrying amounts of assets and liabilities in the financial statements and their related tax bases. However, deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deferred tax assets can be utilised. Deferred tax liability in respect of asset revaluations is also recognised. Deferred tax liabilities and assets are measured at the tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax is recognised on temporary differences arising on investments in subsidiaries, jointly controlled entities and associates except where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Government Grants

Government grants relating to costs are deferred and recognised in the income statement over the period necessary to match them with the costs they are intended to compensate.

Government grants relating to the purchase of assets are included in non-current liabilities as deferred income and are credited to the income statement on the straight line basis over the expected lives of the related assets.

#### Employee Benefits

- a) **Short-Term Employee Benefits**  
Short-term employee benefits include wages, salaries, bonus, social security contributions and paid annual leave. These benefits are accrued when incurred and are measured on an undiscounted basis.
- b) **Post-Employment Benefits**  
**Defined contribution plans**  
Post-employment benefits include defined contribution plans under which the Group pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. These benefits are accrued when incurred and are measured on an undiscounted basis.
- c) **Long-Term Employee Benefits**  
Long-term employee benefits include retirement gratuities payable under a retirement gratuity scheme which was established in 1991 by the Board of Directors for Executives and Executive Directors of the Company and certain subsidiaries. The level of retirement gratuities payable is determined by the Board of Directors in relation to the past services rendered and it does not take into account the employee's service to be rendered in later years up to retirement. The gratuity, which is calculated based either on length of service and basic salary as at the reporting date or on the basis of emoluments earned in the immediate past three years, is a vested benefit when the employee reaches retirement age.

The present value of the retirement gratuities is determined by discounting the amount payable by reference to market yields at the balance sheet date on high quality corporate bonds which have terms to maturity approximating the terms of the related liability. Employee turnover is also factored in arriving at the level of the retirement gratuities payable. The differences arising from the application of such discounting as well as any past service costs and the effects of any curtailments or settlements, if any, are recognised immediately in the income statement.

Such retirement gratuities payable are classified as current liabilities where it is probable that a payment will be made within the next twelve months and also provided that the amount has been approved for payment by the Board of Directors.

The present value of the defined benefit asset/obligation is determined by discounting the estimated future cash outflows using interest rates of high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms of maturity approximating the terms of the related pension liability.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are immediately recognised in the balance sheet.

Past service costs are recognised immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are amortised on a straightline basis over the vesting period.

- d) **Share-based compensation**  
The Company together with its listed subsidiaries, each operate an equity-settled, share-based compensation plan, where share options are issued by the respective companies to their respective eligible executives and executive directors.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Employee Benefits (Cont'd)

##### d) Share-based compensation (Cont'd)

The fair value of employee services rendered in exchange for the grant of the share options is recognised as an expense over the vesting period. The total amount to be expensed in the income statement over the vesting period is determined by reference to the fair value of each share option granted at the grant date and the number of share options vested by vesting date, with a corresponding increase in equity. At each balance sheet date, the respective companies will revise its estimates of the number of share options that are expected to become exercisable. The option reserves in respect of options which have been lapsed are transferred to retained earnings.

The proceeds received net of any directly attributable transaction costs are credited to share capital and share premium when the options are exercised.

#### Revenue Recognition

Sales are recognised upon delivery of products or performance of services, net of sales tax and discounts, and after eliminating sales within the Group.

The sales relating to property development projects are recognised progressively as the project activity progresses and are in respect of sales where agreements have been finalised. The recognition of sales is based on the percentage of completion method and is consistent with the method adopted for profit recognition.

Sales of short term investments are accounted for when the contracts are executed.

Casino revenue represents net house takings. The casino licence in Malaysia is renewable every three months.

Dividend income is recognised when the right to receive payment is established.

#### Dividends

Dividends on ordinary shares are accrued as a liability in the financial year in which the obligation to pay is established.

#### Interest income

Interest income is recognised on an accrual basis, when it is determined that such income will accrue to the Group.

#### Foreign Currency Translation

##### a) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional and presentation currency.

##### b) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. At the balance sheet date, non-monetary items are translated at balance sheet date using historical rates or rates prevailing when the fair value of the assets are determined. Monetary items are translated at the closing rate. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities at the closing rate are recognised in the income statement. However, the exchange differences arising on monetary items that form part of the net investment in the foreign operations are recognised directly in equity in the consolidated financial statements until the disposal of the foreign operations in which case they are recognised as gain or loss in the consolidated income statement.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Foreign Currency Translation (Cont'd)

##### c) *Group companies*

On consolidation the results and financial position of all the Group's entities which have a functional currency different from that of the Group's presentation currency are translated into the Group's presentation currency as follows:

- i) assets and liabilities, including goodwill and fair value adjustments arising from business combinations completed on/after 1 January 2006, for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- iii) all resulting exchange differences are recognised as a separate component of equity.

#### Financial Instruments

A financial instrument is any contract that gives rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset from another enterprise, a contractual right to exchange financial instruments with another enterprise under conditions that are potentially favourable, or an equity instrument of another enterprise.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or to exchange financial instruments with another enterprise under conditions that are potentially unfavourable.

- a) Financial instruments recognised on the balance sheet  
The recognition method adopted for financial instruments that are recognised on the balance sheet are disclosed separately in the individual policy statements associated with the relevant financial instrument.
- b) Financial instruments not recognised on the balance sheet  
The Group, in managing its interest and currency exposures, enters into foreign currency forward contracts, interest rate swap and currency swap agreements. These instruments are not recognised in the financial statements on inception.

As foreign currency forward contracts are entered into to cover the Group's commitments in foreign currencies, the closing rates are used to translate the underlying foreign currency transactions into Ringgit Malaysia.

The related interest differentials under the swap agreements for interest rate swaps are recognised over the terms of the agreements in interest expense.

The underlying foreign currency assets or liabilities, which are effectively hedged by currency swap agreements, and designated as a hedge, are translated in the respective hedged currencies, at their closing rates.

- c) Fair value estimation for disclosure purpose  
The fair value of publicly traded securities is based on quoted market prices at the balance sheet date. For non-traded financial instruments, the Group uses various methods and makes assumptions that are based on market conditions. Comparisons are made to similar instruments that are publicly traded and estimates based on discounted cash flow techniques are also used. For other long term financial assets and liabilities, fair value is estimated by discounting future contractual cash flows at appropriate interest rates.

The book values of financial assets and liabilities with maturities of less than one year are assumed to approximate their fair values.

### 3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Segmental Reporting

The Group adopts business segment analysis as its primary reporting format and geographical segment analysis as its secondary reporting format.

Revenues are attributed to geographical segments based on location of customers where sale is transacted. Assets are allocated based on location of assets.

Segment revenues and expenses are those directly attributable to the segments and include any joint revenue and expenses where a reasonable basis of allocation exists. Segment assets include all assets used by the segment and consist principally of property, plant and equipment net of accumulated depreciation, amortisation and impairment loss, biological assets, investment properties, land held for property development, property development costs, inventories and receivables. Segment liabilities comprise operating liabilities. Both segment assets and liabilities do not include income tax assets and liabilities and interest bearing instruments.

### 4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's overall financial risk management objective is to optimise the value creation for shareholders. The Group seeks to minimise the potential adverse impacts arising from fluctuations in exchange and interest rates and the unpredictability of the financial markets.

The Group operates within clearly defined guidelines that are approved by the Board of Directors and do not trade in financial instruments. Financial risk management is carried out through risk reviews conducted at all significant operational units. This process is further enhanced by effective internal controls, a group-wide insurance programme and adherence to the financial risk management policies.

The main areas of financial risks faced by the Group are as follows:

#### Foreign currency exchange risk

The Group is exposed to foreign currency exchange risk when subsidiaries enter into transactions that are not denominated in their functional currencies. The Group attempts to significantly limit its exposure for committed transactions by entering into forward foreign currency exchange contracts within the constraints of market and government regulations.

#### Interest rate risk

Interest rate risks mainly arise from the Group's borrowings. The Group manages this risk through the use of fixed and floating rate debt and derivative financial instruments. Derivative financial instruments are used, where appropriate, to generate the desired interest rate profile.

#### Market risk

The Group, in the normal course of business, is exposed to market risks in respect of its equity investments and volatility in market prices of palm products. The Group manages its risk through established guidelines and policies.

#### Credit risk

Exposure to credit risk arises mainly from sales made on deferred credit terms. Credit terms offered by the Group range from 7 days to 120 days from date of transaction. Risks arising therefrom are minimised through effective monitoring of receivables and suspension of sales to customers which accounts exceed the stipulated credit terms. Credit limits are set and credit history are reviewed to minimise potential losses.

The Group avoids, where possible, any significant exposure to a single customer. However, in the ordinary course of business, certain subsidiaries in the Group's Power Division has trade receivables that are solely from their offtakers, the provincial or national electricity utility companies. As such, the counter party risk is considered to be minimal.

The Group also seeks to invest cash assets safely and profitably and buys insurance to protect itself against insurable risks. In this regard, counterparties are assessed for credit risk and limits are set to minimise any potential losses.

#### Liquidity risk

The Group practices prudent liquidity risk management to minimise the mismatch of financial assets and liabilities. The Group's cash flow is reviewed regularly to ensure that the Group is able to settle its commitments when they fall due.

Fixed assets have been revalued by the Directors based upon valuations carried out by independent firms of professional valuers using the fair market value basis except for assets revalued in 1991, which were based on the values determined by a regulatory authority in connection with a restructuring exercise. The net book value of the revalued assets of the Group would have amounted to RM264.6 million (2005: RM314.0 million) had such assets been stated in the financial statements at cost.

On 22 December 2005, a legal charge was created on the freehold land and buildings of a subsidiary of GIPLC with a carrying value of RM40.8 million equivalent for all monies due or that become due to a mortgagee. The facility for which the legal charge had been created was not utilised as at 31 December 2006.

Property, plant and equipment that have been pledged as collateral as at 31 December 2006 amounted to RM1.8 billion equivalent (2005: Nil), for certain borrowings in the Group's power plant business.

The Group recognised an impairment loss of RM35.1 million during the financial year (2005: RM1.7 million) mainly in relation to certain under-performing and idle plant and machineries in the Group's manufacturing business.
